# STUDENT MANUAL

## 1. INTRODUCTION

The **Universidad Internacional Iberoamericana (UNINI)** is an institution of superior postgraduate education which goals and guidance guarantees equal study opportunities for everyone with a continuous enrichment of study programs through two actions:

- improving and adapting study methodologies by program types and the competences to be acquired,
- developing and constantly improving study programs adequate for the social demands

UNINI promotes a model in which students are the focal point, with a clear appropriateness of the theoretical study to the work field applied with methodologies that unify theory with practice. In methodological terms, mechanisms are used to take advantage of new information technologies that enrich learning and contribute to the investigation in distance education. This emerges as quality commitment.

This allows UNINI to offer administrative and technological support and management that facilitates access to all components of distance education:

- financial help according to each person's needs,
- technological infrastructure that allows access to educational systems in any part of the planet,
- follow up, confidentiality and security of the individual's personal information,
- continuous research in distance education and its related methods to offer an education that is in accordance with its objectives,
- physical infrastructure that supports students onsite, and
- continuous academic and administrative support to facilitate the academic life of students.

In terms of academic work, UNINI is characterized for its institutional commitment and academic experience in distance education. An approach of academic management to face an instructional design submitted to continuous update and improvement.

- ICT student support for professional and personal growth facing the emergent demands of globalization.
- Management of recognized teaching methodologies and improvement processes, and procedures related to quality services and facilities for distance education.

This spirit will concentrate firmly in:

- The guarantee of the terms of the educational programs offered by the University in case of closure, so as to allow active students to complete their studies.

In this sense, the Universidad Internacional Iberoamericana includes in its service the guarantee of 24x7x365 availability for online students, including procedures, consolidated models of distance learning methods and university management that coincides with the operational basis of the University itself. In this way, Universidad Internacional Iberoamericana is a means that reflects its training vocation and educational model to society in a serious, rigorous and effective way since its emergence.

This UNINI Student Manual is a supplement to the Institutional Catalog. Students must read it to understand the institutional policies, student services, and the Standards of Academic Progress, among others.

## 2. ABOUT US

**Address:** PO Box 3385 Arecibo, PR 00613-3385

**Physical Address:** Bo. Arenalejos Sector Palache, Carr. 658, Km 1.3 Arecibo, PR. 00612

**Telephone Numbers:** 787-878-2126 /787-878-2123

<http://www.unini.org>

### Main University Administrators

- Dr. Jesús Arzamendi Sáez de Ibarra, President
- Dr. Carmen Rita Román, Rector
- Dr. Ana Rodríguez Zubiaurre, Dean of Academic and Strategic Management
- Mrs. Lillian Díaz Figueroa, Dean of Students Affairs
- Prof. Carol Morales Miranda, Dean of Administration and Finance

### Academic Departments

- Dr. Eduardo García, Director of Department of Environment and Sustainability
- Dr. (c) Carlos Bosques, Director of Department of Innovation, Business and New Technology
- Dr. Silvia Pueyo, Director of Department of Language and Communication Science.
- Dr. Maurizio Battino, Director of Department of Health Science
- Dr. Roberto Álvarez, Director of Projects Department
- Dr. Javier Morales, Doctorate Programs Director

## Other Departments

- Mr. Jorge Hernández, Technology Director
- Dr. Killian Tutusaus, Virtual Campus Officer
- Mrs. Nydia Hernández Reverón, Librarian
- Dr. Mayra González, Professional Counselor
- Mr. Ramón Güilamo, Registrar
- Prof. Janet Miranda, Licence, Assessment and Accreditation Director

## 2.A. UNINI'S AUTHORIZATION

The Universidad Internacional Iberoamericana is authorized by the Higher Education Council of Puerto Rico (CEPR) <http://www.ce.pr.gov> with certificate number 2015-096.

## 2.B. VISION

Be a leading university in distance education and to be recognized internationally.

## 2.C. MISSION

The Universidad Internacional Iberoamericana (UNINI) is an institution of higher education that looks to fulfill the needs of diverse students in Puerto Rico and the rest of the world. This will be achieved through high quality academic programs provided through an online study methodology centered on the student and focused towards having each and every one of them achieving their full capacities.

## 2.D. GOALS, OBJECTIVES AND PURPOSE OF THE INSTITUTION

Thanks to the online studies modality, a key player in globalization, UNINI takes its master's degrees to different parts of the world, giving access to various students. This is accomplished through the following objectives:

### Goal 1:

Design online programs for students, no matter where they are in the world, and irrespective of their social, cultural, economic, or technological distinctions.

### Objectives:

- Operate with the highest standards of quality and service directed to the achievement of the institutional goals.
- Review the programs every two years, through the application of new methodologies and technologies, adapting them to the needs and demands of work.

- Offer programs at competitive prices within any student's reach.
- Provide high quality academic and administrative services, accessible to all students.

## **Goal 2:**

Support academic and scientific research in order to increase the student understanding of, and contribute to, the solution of problems in the environment.

### **Objectives:**

- Select a faculty committed to quality in the teaching-learning process.
- Develop and implement training programs for the faculty in tune with changes in the field of education and work.
- Convey the skills needed for the professional performance of students.
- Promote professional and academic ethics to develop leaders in the student's personal and professional life.

### **Purpose of the Institution**

Offer a qualified education to the human resources needed by the service, intellectual and productive sector and the sustainable development of the country. This will allow the projection of the people and the country to the region and other countries associated through integrated processes of teaching, research, social interaction and cultural diffusion, making it possible to achieve programs, projects, actions and activities and any other entrepreneurship and/or innovation action deemed appropriate under the statutes, rules and regulations of the University, the country, international laws and good practices and the responsible approach to science, procedures and ethics.

## **2.E. CONTACT INFORMATION**

**Administrative Hours:** Monday through Friday, 8:00am - 5:00pm  
Bo. Arenalejos Sector Palache, Carr. 658, Km 1.3 Arecibo, PR. 00612

**Student Technical Support:** Through the Virtual Campus 24-7  
Contact access abilitated in PANAL, top menu "Contact" button

**Faculty's Availability:** Through the Virtual Campus 24-7  
Contact access abilitated in the Virtual Campus, Faculty, in the framework of each subject

## **2.F. STUDENT TECHNICAL SUPPORT**

If the student needs Technical Support, the service can be accessed through the Virtual Campus using the "Technical Support" icon. This icon presents solutions to the most common problems. If the student cannot solve their problem, they may contact Technical Support through the contact form and they will be contacted in a short period of time.

The student may also visit our facilities Monday to Fridays from 8:00 a.m. to 5:00 p.m., where a technician will assist him.

## 2.G. AVAILABILITY OF FACULTY

The faculty members are available through the Virtual Campus 24 hours 7 days a week, yet there are periods during the year where they take an academic recess. The professor will notify the students about the recess or vacation period through the Virtual Campus and email.

## 2.H. ONLINE COMMUNICATION PLATFORMS

The PANAL is the communication channel between the student and UNINI. It has the following tools:

**Profile:** Personal information and contact information of the student. It is the student's responsibility to maintain his/her information updated, which can be individually managed by clicking "Edit profile".

- **Admissions Department.** Here the student will consult/request:
  - Request information about new programs, presentations or conferences.
- **Students Affairs Deanship.** Here the student will consult/request:
  - Certificates and titles.
  - Withdrawal (delay of studies) and reincorporation.
  - Extensions (extension of academic time).
  - Printed material shipment (textbooks).
- **Technological Support Department.** Here the student will consult/request:
  - Errors accessing the Virtual Campus.
  - Suggestions regarding the campus and PANAL.
- **Administration and Finance Deanship.** Here the student will consult/request:
  - Changes or modification in financial information (information of credit or debit cards, bank account number)
  - Request of invoice/receipt.

Likewise, UNINI is currently betting on a better positioning in the web and social networks that promotes communication with/between students and alumni.

Current platforms may be found at:

## 2.I. ACADEMIC CALENDAR

Time	Action
Three months after enrollment.	Last day to handle the admissions documents validated, for which the university accepted copies.
Cancellation 5 calendar days after signing the enrollment agreement	Entitled to 100% of all money paid, including the enrollment fee, one time registration fee and admission fee.
Cancellation, after five calendar days (i.e. from the sixth day on) after signing the enrollment agreement, but before starting the program	Entitled to 100% of all money paid, except 20% of the one-time registration fee and the admission fee.
After completing 1%-10% of the time of duration of the program	Entitled to 90% of all money paid, except 20% of the one-time registration fee and the admission fee.
After completing 11%-25% of the time of duration of the program	Entitled to 75% of all money paid, except 20% of the one-time registration fee and the admission fee.
After completing 26%-50% of the time of duration of the program	Entitled to 50% of all money paid, except 20% of the one-time registration fee and the admission fee.
After completing 51%-100% of the time of duration of the program	No reimbursement.
February each year	The modules of the Master in Teaching English as a Foreign Language and the Master in Teaching Spanish as a Foreign Language begin.
March each year	The modules of Master in Project Design, Administration and Management begin.
June each year	The modules of the Master in Teaching English as a Foreign Language and the Master in Teaching Spanish as a Foreign Language begin.
September each year	The modules of Master in Project Design, Administration and Management begin.
October each year	The modules of the Master in Teaching English as a Foreign Language and the Master in Teaching Spanish as a Foreign Language begin.
After completing 66% of any master degree program	Student can begin the master thesis.

## 2.J. HOLIDAY SCHEDULE

The academic recesses taken by the personnel of the facilities from the University of Arecibo will be notified via the Web page and the Virtual Campus.

- January 1st, New Year
- January 6th, Three Kings Day
- Third Monday of January, Martin Luther King's Birthday
- Third Monday of February, Presidents' Day, George Washington, Puerto Rican Heroes
- March 2, American Citizen Day
- March 22nd, Abolition of Slavery

- Good Friday (according to the lunar calendar)
- The last Monday of May, Memorial Day
- July 4th, Independence Day of the United States of America
- First Monday of September, Labor Day
- October 8th, Discovery of America and Columbus Day
- Second Tuesday of November, General Elections (every four years)
- November 11th, Veterans Day
- November 19th, Day of Puerto Rican Culture and the Discovery of Puerto Rico
- Fourth Thursday of November, Thanksgiving Day
- December 25th, Christmas

### 3. ACADEMIC PROGRAMS

#### 3.A. ACADEMIC OFFER AND OUTCOMES

The Universidad Internacional Iberoamericana offers the following programs through its various Departments:

- Master in Teaching Spanish as a Foreign Language (**FPMELE**).
- Master in Teaching English as a Foreign Language (**FPMTFL**).
- Master in Project Design, Administration and Management (**MDGDP**).
- Master in Project Design, Administration and Management with a Specialty in Architecture and Urban Planning (**MPAU**).
- Master in Project Design, Administration and Management with a Specialty in Innovation and Product (**MDPIP**).
- Master in Strategic Management with a Specialty in Management (**MDE**).
- Master in Strategic Management with a Specialty in Information Technology (**MDETI**).
- Master in Strategic Management with a Specialty in Telecommunications (**MDETEL**).
- Master in Environmental Management and Audits (**MAMGA**).
- Master in Physical Activity: Sports Training and Management (**SNMAFEGD**).

### 3.B. CREDITS AND HOURS OF THE ACADEMIC OFFER

Name	Code	Degree Granted	General Objective	Duration (months)	Credits	Hours
Master in Teaching Spanish as a Foreign Language	FPMELE	Master in Teaching Spanish as a Foreign Language	Offer broad and updated training and providing the basis for the development of academic and professional skills necessary to teach Spanish as a foreign language in any of the various contexts.	24	66 credits	990
Master in Teaching English as a Foreign Language	FPMTFL	Master in Teaching English as a Foreign Language	Offer broad and updated training and providing the basis for the development of academic and professional skills necessary to teach English as a foreign language in any of the various contexts.	24	66 credits	990
Master in Project Design, Administration and Management	MDGDP	Master in Project Design, Administration and Management	Educate professionals who can acquire creative executive and management thinking, suitable for the design, operation and management of projects.	24	66 credits	990
Master in Project Design, Administration and Management with a specialty in Architecture and Urban Planning	MPAU	Master in Project Design, Administration and Management with a specialty in Architecture and Urban Planning	Educate professionals who can acquire creative executive and management thinking, suitable for the design, operation and management of projects focusing on architecture and Urban Planning.	24	66 credits	1005
Master in Project Design, Administration and Management with a specialty in Innovation and Product	MDPIP	Master in Project Design, Administration and Management with a specialty in Innovation and Product	Educate professionals who can acquire creative executive and management thinking, suitable for the design, operation and management of projects focusing on innovation and product.	24	66 credits	990
Master in Strategic Management with a specialty in Management	MDE	Master in Strategic Management with a specialty in Management	Educate professionals in the field and practice of strategic management who desire executive thinking that enables them to excel in current or desired positions in management.	24	66 credits	990
Master in Strategic Management with a specialty in Information Technology	MDETI	Master in Strategic Management with a specialty in Information Technology	Educate professionals in the field and practice of strategic management who desire executive thinking that enables them to excel in current or desired positions in management focusing on information technology.	24	66 credits	990
Master in Strategic Management with a specialty in Telecommunications	MDETEL	Master in Strategic Management with a specialty in Telecommunications	Educate professionals in the field and practice of strategic management who desire executive thinking that enables them to excel in current or desired positions in management focusing on telecommunications.	24	66 credits	990

Name	Code	Degree Granted	General Objective	Duration (months)	Credits	Hours
Master in Environmental Management and Audits	MAMGA	Master in Environmental Management and Audits	Educate environmental multidiscipline professionals that contribute to the growth of new industries and desire to update and perfect their understanding of new business opportunities. Facilitate the needed integration of environmental variables in the cultural and technological politics of organizations (business and administrations).	24	66 credits	990
Master in Physical Activity: Sports Training and Management	SNMAFEGD	Master in Physical Activity: Sports Training and Management	Provide knowledge on the structure and function of the human body as well as sports nutrition.	24	66 credits	990

### 3.C. STUDY MATERIAL

The student will have the didactic material available in the Virtual Campus and will receive, progressively, printed texts corresponding to each subject enrolled. This way students will be able to receive updated documents on the last events.

### 3.D. PROGRAMS OUTCOMES

#### Master in Teaching Spanish as a Foreign Language

At the end of the program students will be capable of:

1. Analyze, articulate and evaluate learning and second language acquisition theories, and the methodological trends in the teaching of foreign languages essential for both effective teaching and successful learning.
2. Analyze how the individual factors (cognitive, affective, social and cultural) affect foreign language learning and, accordingly, design instructional strategies to address the learning needs of students of Spanish as a Foreign Language (FL).
3. Manage the Spanish as FL classroom so that group processes guarantee the learning of all students: creation of a safe space in which all students participate and work collaboratively; Use of a discourse that encourages the construction of knowledge; Selection of activities of greater and lesser cognitive effort; Choosing the type of grouping most appropriate for each activity; Attention to learning opportunities that may arise, among other aspects.
4. Integrate the development of the language skills in the Spanish as a foreign language classroom so it promotes a realistic and meaningful language use.
5. Analyze, evaluate, select, adapt, and design adequate materials for the teaching of Spanish as a FL.
6. Analyze the function of the formal system and communication acts of Spanish, and provide an appropriate teaching treatment in the Spanish classroom.

7. Critically and reflectively interpret and implement the cultural, pragmatic and linguistic knowledge acquired on the use of Spanish language in context, in the planning of the teaching and learning process of Spanish as a foreign language.
8. Plan and evaluate the teaching-learning process of Spanish in the short and long term, taking into account current linguistic pedagogical trends; the context of education; the methodological approach; lesson plans; the interests, needs and styles of the student's learning; and technology advances.
9. Integrate ICT in a meaningful way, and not arbitrarily, in the activities of the teaching and learning process for Spanish as a foreign language, and critically analyze the digital materials that are generated in this field.
10. Introduce specific training in learning strategies in the objectives and contents of the program and units, wherever necessary and according to the needs of the students, and work on the necessary learning to learn tools.
11. Integrate the socio-cultural content in the Spanish classroom to give the student gradual knowledge of the facts and cultural products, and the knowledge and socio-cultural attitudes of the Spanish-speaking countries; the development of intercultural awareness; the ability to act as a cultural intermediary and effectively deal with cultural misunderstandings in conflict situations; and the development of an attitude of empathy, openness and interest toward other cultures.
12. Properly treat the varieties of Spanish in the classroom of a foreign language or second language in function of each context of teaching and learning.
13. Analyze and evaluate its teaching and professional development through such instruments as self-observation, diary, self-assessment, the teaching portfolio, etc.; identify the aspects that can be improved; and plan and implement a personal plan of improvement and life-long learning.
14. Access and properly use the academic literature related to Language Pedagogy and Linguistics Applied to the Teaching of Foreign Languages, especially Spanish-language related literature.
15. Design and evaluate methodological procedures specific to research in the fields of Language Pedagogy and Linguistics Applied to the Teaching of Foreign Languages, especially Spanish-language related research.

## **Master in Teaching English as a Foreign Language**

At the end of the program students will be capable of:

1. Analyze, articulate and evaluate learning and second language acquisition theories, and the methodological trends in the teaching of foreign languages essential for both effective teaching and successful learning.
2. Analyze how the individual factors (cognitive, affective, social and cultural) affect foreign language learning and, accordingly, design instructional strategies to address the learning needs of students of English as a Foreign Language (EFL).
3. Manage the EFL classroom so that group processes guarantee the learning of all students: creation of a safe space in which all students participate and work collaboratively; Use of a discourse that encourages the construction of knowledge; Selection of activities of greater and lesser cognitive effort; Choosing the type of grouping most appropriate for each activity; Attention to learning opportunities that may arise, among other aspects.

4. Integrate the development of the language skills in the EFL classroom so it promotes a realistic and meaningful language use.
5. Analyze, evaluate, select, adapt and design appropriate materials for the teaching of EFL.
6. Critically and reflectively interpret and implement the cultural, pragmatic and linguistic knowledge acquired on the use of English language in context, in the planning of the teaching and learning process of EFL.
7. Analyze the implications that the current role played by English as the language of global communication may have for teaching English as foreign/second language.
8. Design didactic proposals for the EFL classroom that integrate the acquired knowledge on the concepts of inter-language and interaction in a foreign language classroom.
9. Plan and evaluate the teaching-learning process of English in the short and long term, considering current linguistic pedagogical trends; the context of education; the methodological approach; lesson plans; the interests, needs and styles of the student's learning; and technology advances.
10. Integrate ICT in a meaningful way, and not arbitrarily, in the activities of the teaching and learning process for English as a foreign language, and critically analyze the digital materials that are generated in this field.
11. Introduce specific training in learning strategies in the objectives and contents of the program and units, wherever necessary and according to the needs of the students, and work on the necessary learning to learn tools.
12. Evaluate the usefulness of using a translation-based method for teaching English and design translation activities within the framework of communicative language teaching as a complementary tool to improve the EFL learning process.
13. Analyze and evaluate its teaching and professional development through such instruments as self-observation, diary, self-assessment, the teaching portfolio, etc.; identify the aspects that can be improved; and plan and implement a personal plan of improvement and life-long learning.
14. Access and properly use the academic literature related to Language Pedagogy and Linguistics Applied to the Teaching of Foreign Languages, especially English-language related literature.
15. Design and evaluate methodological procedures specific to research in the fields of Language Pedagogy and Linguistics Applied to the Teaching of Foreign Languages, especially English-language related research.

### **Master in Project Design, Administration and Management**

At the end of the program students will be capable of:

1. Define basic concepts in creating, managing and administering projects.
2. Recognize and analyze the basic aspects of a project, to define strategically the necessary services, ergonomic aspects and functional aspects of the project.
3. Design a pre-project considering its basic aspects: from the definition of the situation to the presentation of a solution proposal, recognizing the necessary elements that must be defined and specified to manage and materialize the proposal.

4. Analyze the project management key aspects in its different life cycles; identification of interested parties, user requisites, management of team works and basic issues that defined the feasibility and viability, considering patenting and intellectual property issues.
5. Identify the elements that contribute quality, security and feasibility to the project, as well as those that represent important risks, while analyzing the possible impact to the environment.
6. Develop a balanced chart with management indicators for human resources, work division structures and organization of the activities that assist in making business decisions strategically.
7. Incorporate basic project management and administration tools to manage resources, calendar and the TIC available projects.

### **Master in Project Design, Administration and Management with a Specialty in Architecture and Urban Planning**

At the end of the program students will be capable of:

1. Define basic concepts in architecture and urban planning projects.
2. Design a pre-project considering its basic aspects, from the definition of the situation to the presentation of a solution proposal, recognizing the necessary elements that must be defined and specified to manage and materialize the proposal.
3. Recognize and analyze the basic aspects of an architecture and urban planning project, to define strategically the necessary services, ergonomic aspects and functional aspects of the project.
4. Analyze the key aspects of architecture and urban planning project management; identification of interested parties, user requisites, management of team works and basic issues that defined the feasibility and viability.
5. Identify the elements that contribute quality, security and feasibility to the project, as well as those that represent important risks, while analyzing the possible impact to the environment and the existent sustainable development and eco-design systems.
6. Incorporate basic project management and administration tools to manage resources, calendar and the TIC available for urban planning and architecture projects.

### **Master in Project Design, Administration and Management with a Specialty in Innovation and Product**

At the end of the program students will be capable of:

1. Define basic concepts in innovation and products projects.
2. Design a pre-project considering the basic aspects of an innovative project: from the definition of the situation to the presentation of a solution proposal, recognizing the necessary elements that must be defined and specified to manage and materialize the proposal.
3. Recognize and analyze the basic aspects of a project that offers an innovative service or product, to define strategically the necessary services, ergonomic aspects and functional aspects of the project.

4. Analyze the key aspects of an innovative project; identification of interested parties, user requisites, management of team works and basic issues that defined the feasibility and viability, considering patenting and intellectual property issues.
5. Identify the elements that contribute quality, security and feasibility to the project, as well as those that represent important risks, while analyzing the possible impact to the environment and considering the product design and manufacture processes.
6. Incorporate basic project management and administration tools to manage resources, calendar and the TIC available for innovative product projects.

### **Master in Strategic Management with a Specialty in Management**

At the end of the program students will be capable of:

1. Design a strategic process from the organizational diagnosis and assessment to the development of objectives and selection of strategies.
2. Analyze and explain the organizational environment to improve the internal processes, including normative, regulations, certifications and accreditation.
3. Integrate administrative process and Information Technologies (IT) for decisions making and problem solving.
4. Create the marketing mix of a business and propose the design of Market research.
5. Analyze and apply conflict resolution techniques and human resources knowledge for effective manage of work environment and human resources development.
6. Design strategies of continual improvement in the operations that influence in the competitiveness and feasibility of the company.
7. Identify the roles, approaches and practices to manage different size and purpose businesses, applying management accounting as method to make financial decisions to maximize the business economics.
8. Manage administration and leadership abilities keeping ethical principles, honest and transparent administration in the consecution of objectives.

### **Master in Strategic Management with a Specialty in Information Technology**

At the end of the program students will be capable of:

1. Analyze problems, and identify and define the appropriate technology and requirements for an information system.
2. Evaluate technological solutions, systems, processes, components or programs to meet company's requirement and needs and its impacts on the organization.
3. Combine strategic planning and management techniques and skills in the area of information systems.
4. Evaluate current and emergent technologies relevant to the operation field in the organization.
5. Distinguish and address professional, ethical, legal and social responsibility.
6. Combine software engineering techniques and skills to develop, design and manage databases, software and information systems (\*).

## **Master in Strategic Management with a Specialty in Telecommunications**

At the end of the program students will be capable of:

1. Evaluate current and next generation telecommunications applications and services.
2. Manage proposals, solutions, planning and development of telecommunications projects.
3. Combine the principles and techniques of Project Management to manage telecommunications projects.
4. Combine the principles and techniques of Project Management to manage human resources and security.
5. Evaluate the legal, regulatory and environmental framework of telecommunications industry.

## **Master in Environmental Management and Audits**

At the end of the program students will be capable of:

1. Explain and analyze sustainable development in the political, social and economic context of a country, in its transition towards an economy low in carbon and evaluate the possible difficulties of term application in public politics.
2. Explain and analyze the relations that are established between the environmental conditions and the characteristics of the species, and interpret the mechanisms for the exchange of matter and energy that occur in aquatic and terrestrial ecosystems, influencing the population strategies of the organisms and how they may be affected by the effect of the anthropic pollution.
3. Develop and evaluate global and local strategies of natural resources, water, residues, atmosphere, noise and soil integral management in educational environment context and rights.
4. Create an integral model that meets with a series of variables (social, environmental, economic...) and define the tools that are necessary in impact and life cycle analysis study, as well as its application in different ISO 14001, ISO 19011 and ISO 14067 standards.
5. Interpret the direct and indirect methods of monetary valuation for the environment and its relation with the internalization of externalities.
6. Compare technologies currently applied to the production of heat and electricity from renewable energy sources (solar, wind, hydraulic) and no-renewables and assess how the variability of the designs influence the climatic parameters and other types.
7. Identify and analyze the variables (social, economic and environmental, among other) that are part of climate evaluation and relate them with the governmental adaptation regulations and the existent mitigation technologies and models applied in different sectors.

## **Master's in Sports Training and Management**

At the end of the program students will be capable of:

1. Seek, obtain and process information applying scientific methodology and procedures, to communicate and transform it into knowledge and apply it in the solution of issues relating to the scope of the sports performance and management.

2. Analyze the main adaptations of the human body and apply the biomechanical, physiological, psychological and social principles to the different fields of sport and nutrition, identifying inadequate practices involving risk to health, in order to avoid them and correct them in the different levels of performances, ages and population groups.
3. Identify the individual characteristics of the athlete that influence and determine their sports actions for planning, programming, implementing, monitoring, quantifying and evaluating the training and competition processes in their different levels of performance, competition period, ages and population groups.
4. Analyze and solve situations related to the scope of the sport performance, as well as make informed decisions with regard to the solution of professional tasks, both individually and in collaboration with others.
5. Plan, implement strategies, develop and adequately evaluate the completion of professional tasks related to the field of sports training and management, assuming the ethical commitments, legal and contextual framework and responsibility required by the profession.
6. Use, analyze, interpret and apply the information and communication technologies with reflexive knowledge in the practical solution of the academic and professional tasks that are proposed in relation to the field of sports performance.
7. Identify the influence of nutrition and food as a tool in improving the performance of the elite athlete.
8. Describe and explain the management of infrastructures and technical areas of a sports institution or entity and the procedures for its optimization, identifying the opportunities offered by the information systems and information technology.
9. Train managers and qualified staff with human capabilities and business to manage companies and sports institutions and understand the marketplace of the sports sector.
10. Acquire skills that enable us to continue training and learning in the field of sports management by both the contacts established with professors and professionals of the master, as a standalone mode.
11. Acquire and consolidate the initiative, the entrepreneurial spirit to launch projects related with sports management.
12. Analyze and identify the different styles of leadership, promoting the development of skills and attitudes aimed to lead sports projects of collective professional development and transfer the progress experienced in the discipline to society.

## 4. ADMISSION REQUIREMENTS

The Universidad Internacional Iberoamericana has the following documents as part of the admissions requirements, which are subject to verification without violating the privacy of information of the individual. The University reserves the right to verify and validate the information in certain cases after informing the person involved.

The University will have a web page for online admission, in addition to their offices. Every admitted student will sign the Enrollment Agreement.

## 4.A. ADMISSION POLICIES

To apply at the Universidad Internacional Iberoamericana, it is necessary to:

- Have graduated from an accredited or recognized university in any country with a Bachelor's degree or equivalent.
- Know the language of the program taught. If necessary, provide accredited documentation or the corresponding fluency test.
- Being distance education programs that are not subject to on-site classes, there is no specific start date, by which the student may formalize the application at any time, as long as there are available spaces. However, the masters that have a group work modality (MDGDP) or that must follow a determined line for their studies (FPMELE-FPMTFL), will be subject to specific dates for their commencement.

MDGDP - design modules begin in the months of March and September.

FPMTFL FPMELE - The calls are in the months of February, June and October.

The enrollment is open all year round but is consolidated to make an income and enroll in the indicated periods.

## 4.B. ADMISSION DOCUMENTS

In case of fulfilling the previous requisites, the candidate must complete the application and submit it to the Admissions Department:

- Electronic Enrollment Form.
- Photocopy of university diploma or certificate. It must be notarized or certified by a public institution or authorized by UNINI.
- A regular photocopy of an identification document, foreign identification, driver's license or passport.
- New students and readmissions must submit a written request stating the reasons to the Department Director, and attaching all the additional documentation deemed necessary. The Department Director will inform the decision to the candidate and to the Dean of Students Affairs.
- Students transferred from graduate programs of other institutions can add transcripts, curriculum content of the subjects studied, and rating and approval system used. In the case of studies with scale ratings other than GPA, this certificate must contain the respective equivalents.
- Present official credit transcripts or grade certificates.
- Holders of scholarships must provide the relevant and accredited documentation.

Once the candidate has submitted the documentation, the admission's process will start. During this process, records or other documentation may be requested.

**Notes:**

- Foreign documents will be evaluated and revised by the University and may require validation and/or legalization.
- If the documents are not in Spanish, English or Portuguese the applicant is responsible for the appropriate translation.

**4.C. ADMISSION'S REQUIREMENTS BY PROGRAM**

Masters	Admission Requirements	Documents
<p><b>Masters in Teaching Spanish as a Foreign Language</b></p>	<ul style="list-style-type: none"> <li>• Graduated with a bachelor degree or its equivalent from an accredited or recognized college or university, of any country.</li> </ul> <p><b>Language Requirements:</b></p> <ul style="list-style-type: none"> <li>• To enter the program, non-Hispanic speakers must prove a sufficient command of Spanish as a vehicular language in an academic environment. Said domain is recognized to those who can prove that they have completed a university degree related to the area in universities from Spanish-speaking countries. However, this recognition is not automatic and it materializes after carefully studying the documentation that the postulant brings.</li> <li>• In case of not having such a degree, the individual will be credited with a sufficient command of the language through the submission of documents such as the Higher Diploma of Spanish as a Foreign Language from the Cervantes Institute or comparable others.</li> <li>• If the aspiring individual does not have any type of certificate attesting to their level of language or the university qualifications which they have is not adequate, the person must perform a test of access in order to enter the program.</li> </ul>	<p><b>Electronic Registration Request.</b></p> <ul style="list-style-type: none"> <li>• Photocopy of university degree or certificate of studies. Must be notarized or certified by a public institution or authorized by UNINI.</li> <li>• A regular photocopy of an identity document, foreign identity card, driver's license, or passport.</li> <li>• Students in any state wishing to start or resume a program of studies must submit a letter of application stating their motivations to the Department Director by attaching all the additional documentation that they deem is necessary to provide. The Department Director will inform the result of the petition to the candidate and the Dean of Students Affairs.</li> </ul> <p>Students from graduate programs of other institutions can add certificates of letters, CVs from the subject contents studied, rating system and approval used. In the case of studies with qualifications that use scales other than 1 to 4, this certificate should consist of the respective equivalencies.</p> <ul style="list-style-type: none"> <li>• Present official credit transcripts or grade certificates.</li> <li>• Those who have scholarships, should provide the relevant and supporting documentation.</li> </ul> <p>Foreign documents will be evaluated and revised by the University and may require validation and/or legalization. If the documents are not in Spanish, English or Portuguese the applicant is responsible for the appropriate translation.</p>

Masters	Admission Requirements	Documents
<p><b>Masters in Teaching English as a Foreign Language</b></p>	<ul style="list-style-type: none"> <li>Graduated with a bachelor degree or its equivalent from an accredited or recognized college or university, of any country.</li> </ul> <p><b>Academic Requirements:</b> BA Honors (4 years of university studies) in a field relating to Educational Studies, Languages or Social Sciences. Degrees in other areas will also be considered for admission on the MA program prior to completion of the entry exam. If the candidate has ample experience in the TEFL field and holds an Ordinary degree (3- year degree), he/ she may be admitted onto the MA course prior to individual evaluation by the Admissions Director.</p> <p><b>Teaching experience</b> For all the courses in TEFL (Master, Diploma, Certificates) a minimum of one year's teaching experience in ELT at any type of institution or in private tuition, is recommended. For the Certificates, if the candidate has no previous teaching experience, he/she may be asked to do an entrance exam before being admitted onto the course.</p> <p><b>Linguistic requirements</b> All candidates who are non-native speakers of English will have to provide evidence of having passed one of the following exams:</p> <p><b>Cambridge:</b></p> <ul style="list-style-type: none"> <li>Cambridge FCE (First Certificate) - grade A. (Grade B or C requires the entrance exam to be taken).</li> <li>Cambridge CAE (Advanced) or CPE (Proficiency) - any pass grade.</li> </ul> <p><b>TOEFL:</b> There are 3 versions of this exam:</p> <ul style="list-style-type: none"> <li>Paper-based test (PBT) is out of a total 677 points, a minimum of 550 points is required.</li> <li>Computer-based test (CBT) is out of a total 300 points, a minimum of 230 points is required.</li> <li>Internet-based test (iBT) is out of a total 120 points, a minimum of 79 is required.</li> </ul>	<p>Electronic Registration Request.</p> <ul style="list-style-type: none"> <li>Photocopy of university degree or certificate of studies. Must be notarized or certified by a public institution or authorized by UNINI.</li> <li>A regular photocopy of an identity document, foreign identity card, driver's license, or passport.</li> <li>Students in any state wishing to start or resume a program of studies must submit a letter of application stating their motivations to the Department Director by attaching all the additional documentation that they deem is necessary to provide. The Department Director will inform the result of the petition to the candidate and the Dean of Students Affairs.</li> </ul> <p>Students from graduate programs of other institutions can add certificates of letters, CVs from the subject contents studied, rating system and approval used. In the case of studies with qualifications that use scales other than 1 to 4, this certificate should consist of the respective equivalencies.</p> <ul style="list-style-type: none"> <li>Present official credit transcripts or grade certificates.</li> <li>Those who have scholarships, should provide the relevant and supporting documentation.</li> </ul> <p>Foreign documents will be evaluated and revised by the University and may require validation and/or legalization. If the documents are not in Spanish, English or Portuguese the applicant is responsible for the appropriate translation.</p>
<p><b>Masters in Teaching English as a Foreign Language (continues)</b></p>	<p><b>Michigan Test:</b> EPEC (Examination for the certification of proficiency in English) - to pass. The Michigan ECCE (Examination for the certification of competency in English) is not accepted since the level is too low. If the candidate does not have any of the above-mentioned certificates, and if he/she is not a native English speaker, then he/she will have to sit the entrance exam. English certificates from any other language schools will generally not be accepted, but may still be submitted for evaluation by the teachers on the course. If no consensus is reached regarding the qualification, the candidate will have to sit the entrance exam.</p> <p><b>Anyway</b>, having English as an L1 doesn't presuppose that a student has the linguistic level that this Masters demands. So, as a last resort, the company's management team of this program can demand that the candidates pass a test that proves that they possess the level required.</p>

## 4.D. TECHNOLOGY REQUIREMENTS

### Technical Skills and Knowledge Necessary to Access and Complete Studies

All students enrolled in the programs of the Universidad Internacional Iberoamericana will receive the required instructions to pursue their studies at the beginning of the program, covering both the acquisition of skills in use and management of computing resources such as integration with other students and the University community.

### Description of Technical Equipment and Programs Necessary for Distance Learning

In distance education programs students must have a computer with the following software, hardware and infrastructure for the current configuration of the University's Virtual Campus:

#### Equipment

- Mid-range Computer or higher. At the time of writing this document, Intel Pentium G860 of 3 Ghz.
- Monitor.
- Webcam and audio system. The Program's development requires video conferences to be conducted, and supervised exams that use these devices.

#### Infrastructure

- Internet connection for a minimum of 2 hours a day.

#### Software

The following programs to be installed on computers (indicates the recommended configuration):

- Operating System (their latest versions):
  - Mac OS X.
  - GNU/Linux - Distribución Ubuntu o Linux Mint.
- Web Browser (their latest versions):
  - Mozilla Firefox.
  - Google Chrome.
  - Microsoft Internet Explorer.
  - Safari.

#### Notes:

- It is recommended to always have the latest browser version.
- All browsers must enable JavaScript™.
- To use the chat rooms and whiteboard, Java™ must be enabled.
- To use the ticket based authentication, browser cookies should be enabled.

- All technical specifications delivered can vary in order to improve the quality of student performance. Any changes will be reported and will not affect current students.
- These specifications do not prevent any student from entering a program because the computer services offered by the University are accessible by the many computers available in public places or computers rented per hour. However, the above characteristics are the ones that allow efficient performance and enable optimum use of educational resources available in the Virtual Campus. What is recommended is to always have computer access.

#### **4.E. ABOUT THE ETHICAL AND LEGAL USE OF INFORMATION TECHNOLOGIES**

The institutional policy ensures the appropriate use of information technology and telecommunications for the university's community, the people who serve the University, external clients and users of information systems and telecommunications of the University. The policy applies to the institutional use of the University's information on paper, tape, electronic communication and other analog media.

The University will provide access to local sources of information, nationally and internationally, to ensure intimacy and confidentiality in the use of information technologies, including email files and printed lists of users. Also, it will protect administrative information systems, educational and research, from accidental modifications or unauthorized and intentional misuse, destruction, or disclosure.

Also, it will strive to safeguard the integrity of their information systems in workstations, networks, laboratories and other University facilities or properties.

All users have the responsibility to use information technology efficiently and effectively, with deference to the trust and public ethics, in accordance with the laws and University regulations. They must also commit to cooperate with state and federal agencies, as well as other interested parties, so that the environment of information technology at the University and its internal and external networks remain protected from any interference.

#### **4.F. ADMISSION TO THE UNIVERSITY**

From the moment that the university receives the installment payment of tuition, admits to the university to the candidate. The Admissions Department will notify the candidate about the admission to the university through email and mailing address.

#### **4.G. NOTIFICATION OF ACCEPTANCE OR DENIAL OF ADMISSION**

The candidate is admitted to the University after paying the enrollment fee. The Admissions Department will notify the candidate about the admission to the university through email and mail.

## **4.H. PROCESS REVIEW**

The application process may require revision by the Program Department or the Dean of Students Affairs, who have the authority to emit any admission criteria. These entities of the University may require or provide details of the applicant or university candidate.

The part, the candidate can and should make requests to the Dean of Students Affairs through official means during the admissions process.

In this process, the Dean of Students Affairs will ask the Departmental Director to coordinate the Program of Study in which the candidate is interested.

## **4.I. ENROLLMENT AGREEMENT**

If the admission is approved, the Admissions Department, with the cooperation of the Administration and Finances Deanship, prepares the Enrollment Agreement. The student must sign the enrollment agreement before they are enrolled.

## **4.J. CREDIT ACCEPTANCE AND TRANSFER**

### **Regarding authentications and validations:**

The University conducts a process of content recognition only among graduate programs which serves to standardize or validate studies. Recognition of content may require examinations to verify certain subjects. The University validates or authenticates only when the subject content has been completely evaluated.

The whole process requires legalizada or original documents.

The process will be performed by the Dean of Academic and Strategic Management and/or the Department Directors.

### **Course Transference Policy**

- Transfers are considered from courses with an A or B grade from an accredited institution in Puerto Rico or a foreign country.
- Transfer students must comply with all admission requirements.
- Courses that were completed more than 10 years ago will not be validated. Courses that were taken 10 years or less may be convalidated if the course content has not changed significantly.
- The courses must have the same or greater number of credits, and the description must be equivalent to the course description in UNINI. Those courses which number of credits is less than UNINI's will be carefully evaluated by the Dean of Academic and Strategic Management.
- Courses graded with an S or a P will not be validated.
- Courses will not be validated by job experience.

- Students must present the University catalog where they studied the subjects, in those cases where it is not available on the Internet.
- The courses that are validated will be documented in the academic record and graded with a T (Transference).
- If the student has taken courses in more than one academic institution, each transcript will be evaluated independently.
- Up to 50% of the institution's credits can be validated.
- Only courses of the same level will be validated.
- The credits that are validated will be permanently included in the academic record, but are not used to calculate the student's average grade.

#### 4.K. ACCEPTANCE OF CREDIT TRANSFER STATEMENT

Acceptance of academic credit transference is determined by the receiving institution.

### 5. FINANCIAL INFORMATION

#### 5.A. COSTS AND POLICY OF COSTS

COST	
Description (The university considers Tuition Costs all those costs which are associated with the integration and development in the academic lifespan, which payment gives the student rights and obligations)	Total Program Cost
Master Program Cost (or rate): This amount may be paid according to the facilities granted by the university through its installment payment programs or academic credits. The Master's Program Cost is a refundable fee as indicated in the reimbursement rules established by the university. The price of our programs is universal and not by credits.	\$10,500.00
EDUCATIONAL SCHOLARSHIPS An evaluation committee will examine the suitability of each candidacy in function of the provided antecedents, their academic and professional record, their personal and family income, and their socio-family conditions.	(\$0.00)
Total to be paid by the student for the program cost	\$0.00
Amount of monthly payments for administrative fees	\$35.00 (in each payment)
Total of administrative fees	0
Admission fee (paid upon admission application).	0
Enrollment Fee This amount include enrollment fees, technical support, shipping of material, Virtual Campus Access (paid after signing the Enrollment Agreement; the access to the Virtual Campus is enables when the fee is paid)/	\$50.00
Amount of monthly payments for administrative fees	\$200.00
Total	0.00
OTHER CHARGES	
Diploma*	\$200.00
Credit Transcript*	\$10.00

COST	
Legalization*	<b>\$200.00</b>
Extensions* The program duration is projected in twenty-four (24) to twenty-five (25) months. The student has thirty six (36) to thirty seven (37) months with a maximum of two extensions of six months each, at a cost of \$500 American dollars to complete the program.	<b>\$500.00</b>
*Shipping charges may applied. These costs are subject to changes.	
<b>Payments</b> The student has the option of paying the total amount of the contract when he begins or can use a payment plan for which he must have a banking account or credit card to make monthly payments. To this end, you must sign the Payment Authorization and deliver it via email or certified mail to the University. The Payment Authorization will have the seal and signature of the Dean of Administration and Finances.	

- The values included in the table are the same for any student whether they reside in Puerto Rico or not. However, the program's final cost varies according to the scholarship.
- The University reserves the right to make changes to all the registration costs. These amounts will be publicly reported to applicants and students by the means provided for this purpose and will not affect students who have already begun their studies and do not present interruptions.
- Any student who applies for or is affected by an interruption of studies for any reason, including partial withdraw, but not limited to this, will be disabled of using the Virtual Campus and virtual learning resources, or any infrastructure of the university during their partial withdraw.
- Any other charge for specific or special purposes will be announced 30 days in advance.
- The cost of textbooks is included in the total program cost.
- All collections will be done in advance or the same day at the beginning of a process or during as indicated in the Payment Plan of the Enrollment Agreement.
- Given that the cost is for the entire program, there is no discount for validated subjects.

## 5.B. PAYMENT PLAN

The established Payment Plan for the Program Cost is the following:

PAYMENT PLAN				COST ITEMIZATION			
Fees		Monthly payment plan		Cost of the program with scholarship (if applicable)	Adminis- trative Service Fee (\$35.00 in each monthly payment)	Total cost of Program	Total cost (fees and monthly payments)
Admission Fee	\$ 50.00	Amount of Installments	25				
Enrollment Fee	\$200.00	Installments	\$239.00				
Admission date	April 15, 2018	Program initial date	May 15, 2016				
		Expected ending date	June 15, 2020				

All charges will be made on the date stipulated in the Enrollment Agreement.

A balance status is applied to students who fail the agreed payments. The Administration and Finance Deanship will follow up on the student from the moment that they fail payment. During this status, the student will not have access to the Virtual Campus.

### 5.C. CANCELLATION

If the student decides for a total withdrawal, at any time, he/she must notify the university through email, mail, or visiting the offices of UNINI.

The student will have (5) calendar days (the fifth day included) after signing the agreement to cancel the enrollment (i.e. decline your enrollment) and receive a full refund of the money (100%) paid to UNINI, including the Admission Fee, and the Enrollment Fee.

If the student cancels the enrollment after the fifth calendar day (i.e. from the sixth day) after signing the agreement, but before the beginning of the program, the student will be entitled to a reimbursement of the total money paid to UNINI, except the following amounts:

- 20% of the Enrollment Fee
- Admission Fee

### 5.D. REIMBURSEMENT

If the student cancels the enrollment after the fifth calendar day after signing the agreement, and after having started the program, he/she will be entitled to a refund according to the percentage of subjects taken:

Percentage completed by the student	Percentage of the Program Cost to be reimbursed including the Enrollment Fee	Admission Fee and One-time Registration Fee
1% - 10%	90%	<ul style="list-style-type: none"> <li>• The Admission Fee is none reimbursable.</li> <li>• 80% of the One-time Registration Fee is reimbursed.</li> </ul>
11% - 25%	75%	
26% - 50%	50%	
51% - 100%	0%	<ul style="list-style-type: none"> <li>• The Admission Fee is none reimbursable.</li> <li>• The One-time Registration Fee is none reimbursable.</li> </ul>

All refunds will be fulfilled in a period of no more than 30 days after requested.

In case of cancellation for reasons beyond the student's control, special consideration will be given to the request for reimbursement, as long as it is accompanied by the corresponding evidence.

Students who cancel their studies and have paid for the entire program and who are not entitled to reimbursement, may receive the study materials of their program. This decision will be subject to an evaluation by the Planning, Management and Academic and Administrative Development Committee.

These rules may be revised, adapted, extended and improved based on any proposal from the Dean of Student Affairs, upon approval from the Rector and the Board of Directors.

## 6. ABOUT ACADEMIC LIFE

Academic Life is the time in which a student is active in the program. The total of periods in which the student is in this status must not exceed the program duration in terms of time, with the opportunity of an extra year divided in two extension. The maximum Academic Life term depends on the program duration. Academic Life implies the official enrollment date in the University until the date that the student submits the final work for graduation.

### Beginning the academic life:

- A student enters a program of study following the requirements for admission to the university and meets the requirements of the program that they choose.
- The student receives a copy of the Curriculum and Program of Studies to formalize the beginning of the studies. The student shall study with the certainty of having the skills and technical knowledge and resources to study at a distance.
- The student will provide the documentation requested and sign all required documents.
- This action is done by the Dean of Students Affairs who will report to and maintain contact with the student.
- The student will follow the order of the subjects in the program of study. They receive access to the Virtual Campus and will receive the necessary printed material for each subject, upon approval of the previous.
- At all times, the student is considered an active student, except when other events occur that lead to change their status to: partial withdrawal, withdrawal, thesis or graduated student. The status of the student may vary according to the rules of the university.
- New students from other universities and readmitted students have a customized sequential, if necessary. These students must complete the required enrollment process.
- If the Sequential and/or Study Schedule is modified the University will honor the Study Plan in force at the time of enrollment or until two years after the date of the term, based on the date the document is signed. The Study Schedule can be altered as long as the student benefits.
- The university programs are designed to be completed in twenty-four (24) to twenty-five (25) months. The student has a term of thirty-six (36) to thirty-seven (37) months through a maximum of two extensions of six (6) months each, at a cost of \$500.00 US dollars per extension, to complete the program.
- All first term students must successfully complete the required interaction activities for distance education.
- The results of the assessments are informed within 2 weeks, and each student will be assisted and evaluated by the professor or tutor, who will notify the students about any shortcomings that must be improved.
- All students will receive information about the professors involved in their program.

**Regarding internships:**

- In the event of any required internships, these will be approved and supervised according to the Internship Manual of the University.

**Regarding regulations:**

- Every student has the right to appeal any University rule asking for its exception or interpretation. In this case the student must write to the Department Director who will submit the request for evaluation to the Departments Council and the University Administrators. The issue will be discussed and solved by these authorities. The Department Director will notify the decision to the student; and the Rector will inform the departments involved and/or affected by any resolution. The student must appeal no later than 60 days before the regulation affects him. The authorities will solve the issue within 15 working days after receiving the notice. The resolution will be filed in the Student's Record.

## **6.A. ASSESSMENT TECHNIQUES**

The academic programs from the Universidad Internacional Iberoamericana present two different types of assessment techniques: subjective and objective.

**a) Subjective Assessment Techniques:**

This category includes all tests or tasks that must be directly evaluated by a tutor or professor, and it is particularly useful to assess multiple student aspects, such as, self-expression, initiative, and the ability to take action in specific contexts or situations, the ability to face problems, demonstrate social skills and the proper use of the tools provided to solve activities. These evaluations include: practice activities, open-ended question tests, forum activities, oral reports and portfolios.

**b) Objective Assessment Techniques:**

The objective assessment techniques refer to tests composed of closed response questions and/or direct answers. In the first case, the student must respond to the question with a single answer between several options given; and in the second, the student must produce a simple answer (usually a word), that may be scored as correct or incorrect by the professor.

This evaluation technique is opposite to the subjective assessment, because the professor does not evaluate the answer, as it is an only-answer exercise. The objective technique includes: multiple choice questions, true or false exercises, relation and identification exercises.

### **Program and subject evaluations**

The subjects are evaluated with three of the evaluation tools defined in the previous paragraph to combine both subjective and objective techniques, and so be able to evaluate different aspects (knowledge, attitudes and skills), and integrate different cognitive styles.

In addition, some programs may include on-site evaluations at the university or supervised by a proctor.

The final grade of the programs is the result of each subject and master thesis grades.

### **Regarding to the Master Thesis**

The Master's Thesis is the final project (FP) of the master's program.

To begin the thesis development, the student must have completed 66% of the program's credit.

The standards set forth in the Guidelines for Master's Thesis are located in the Virtual Campus. These guidelines have been designed to offer the necessary guide in the FP's entire elaboration process.

The student will carry out the oral defense in person in the installations of the Universidad Internacional Iberoamericana. Students who do not live in Puerto Rico may carry out their defense via Skype from any FUNIBER offices located in the different countries or in universities with agreements, through a video conference with guaranteed technical and academic means.

Regarding the thesis document and the defense carried out, the thesis board:

1. Will evaluate the work presented by the student.
2. May require that the student make changes, improvements and/or corrections when formal and methodological aspects need to be improved.
3. May reject the thesis under circumstances, such as plagiarism; and may require a new thesis that complies with the Thesis Standards of the Institution.

The minimum qualification to pass the thesis is a B = 80% or GPA of 2.50 to 3.49 and 7.0 to 8.5 in the European System.

All student appeals must follow the appeal procedures stipulated within 10 business days after receiving the grade for the Master Thesis. The University will revise the appeal. This process should not exceed a month, and has two possible results: to sustain or to revise the grade.

If the grade is sustained, the Thesis Act Registry closes. If the grade is revised, it will be reviewed again getting a new grading date.

Any impact on this process will be managed by the Program Director who will take note of the proceedings and actions.

## **6.B. INSTITUTION'S CREDIT HOUR POLICY**

Each student will progress in their studies according to the academic program. The amount of time that must be devoted to the studying and completing each of the subjects varies according to the appropriations that have been assigned to it. UNINI will measure the credit courses by the learning outcomes achieved through 45 hours of student work for one unit (one credit hour). One unit is 15 hours of academic engagement and 30 hours of preparation. This formula is typically referred to as a Carnegie unit.

Student work includes direct or indirect faculty instruction. On the one hand, academic engagement includes the following activities:

<b>Directed and supervised activities</b>	Participation in forum activities
	Correction of exercises
	Tutoring (individual – group)
<b>Evaluation activities</b>	Exam performance

And on the other hand, preparation is related to the following activities:

<b>Autonomous activities</b>	Watching and working with virtual exhibition sessions
	Preparation of forum activities
	Personal study of the contents and readings
	Development of group or individual work
	Performance of Practical Activities
	Performance of self-evaluation and reflection activities

Therefore, a 3 credit hour course requires 45 hours of academic engagement and 90 hours of preparation.

The number of credits that is assigned to each subject is directly related to the estimated time that the student must dedicate to develop the skills, acquire the knowledge and achieve the learning objectives defined through the implementation of the learning activities planned for that purpose. Based on this premise, it is expected that the time of study in a subject of 3 credits is between 4 and 6 weeks depending on its characteristics. Which means a commitment, by the student, of 22 hours, 30 minutes and 33 hours and 45 minutes weekly.

During this period, the student courses one subject.

### 6.C. INSTITUTION'S ACADEMIC GRADING POLICIES

In the enrollment process, students are enrolled in the entire program and courses; and must comply with the term of duration of the academic life. The student cannot enroll in other subjects.

Grades will be expressed in letters A, B, C, D, or F in a GPA scale. A course is approved with a minimum grade of B in the GPA scale.

At the end the student receives a final grade that is the result of the subject and master thesis grades. Some programs require a final test, which will be evaluated as PASS or NO PASS. To obtain the Diploma, the Final Grade of the Program must be equal to or greater than B (and in the programs that require it, the student must have obtained a PASS in the final test).

Every grade must be justified by the professor, and the student can appeal in writing for a revision if not satisfied with the final grade obtained in the subject or any evaluation activities. The student has 10 business days after the grade is published to appeal. The **Grade Revision Procedure** is:

1. First, the student must send a notification to the professor of the subject requesting the revision of the final grade obtained in the subject or in any evaluation activities. In this message, the student must explain and justify the allegation.

The professor has 10 business days, since the receipt of the allegation, to review the student's arguments and make a decision.

2. If the professor determines that the allegation does not proceed, the student may request a new revision to the program director, who in turn must give an answer within a maximum period of 10 business days.
3. If the program director also decides that the allegation does not proceed, the student, in last instance, can submit it to the department director.
4. The Department Director will answer the student in a maximum time of 20 business days. The Dean of Student Affairs or a representative will participate in the analysis of the case. The decision arising will be final and firm, by agreement between the parties involved or simple from a majority.

If the grade is revised and changed, the professor of the subject (with the approval of the program director) must inform the Registry Office to change the grade in the student's file.

Students have the right to know the grade of an evaluation, as well as the correction methods before undergoing a reassessment process in a subject. Final grades for the subject should be sent before the instructor reports them to the Dean of Academic and Strategic Management.

The student can request a change of status to "hold" or "withdrawal"; the University can change the student's status.

Any special activities included in a program of study will be announced in advance to the student.

## **6.D. GRADING SYSTEM**

The student will receive a detailed feedback of his performance. The University uses a system equivalent to the GPA method ("Grade Point Average"), the grades are expressed in letters A, B, C, D or F.

To obtain the GPA of the program: The points for each subject are multiplied by the number of credits or hours for that subject, added together, and divided by the total number of credits or hours. The minimal grade at the end of the whole program should be a B (2.50 - 3.49 GPA).

The following table shows the equivalence between the values of UNINI quantitative and qualitative grades. It also expresses the GPA method equivalence:

Quantitative Values			Grade
0-10	Grade Point Average (GPA)	%	
10-8.6	4.00 – 3.50	100-90	A
8.5-7.0	3.49 – 2.50	89-80	B
6.9-4.5	2.49 – 1.60	79-70	C
4.4-4.0	1.59 – 0.80	69-50	D
0	0.79 – 0.00	49-0	F

To ensure that the grades are awarded with the fairness and consistency, especially in the case of subjective assessment techniques, all programs have evaluation criteria that the professors must apply using rubrics. These evaluation criteria (rubric) vary depending on the program and the academic task that is being assessed.

## 6.E. SUBJECT RECOVERY

The student must carry out three evaluation activities throughout the educational process during the period that the student is pursuing a subject, as previously mentioned, (educational evaluation) and at the end (summative evaluation).

If the student obtains less than 7/10 (B), in the first evaluation, the student will have two opportunities to recover the subjects through retake activities 1 and 2.

The student must access the evaluation instruments in the section that corresponds to the first retake in the Virtual Campus.

If the student fails again, he must complete the second recovery and must obtain a maximum score of 8.5 points, which supposes an impact in the GPA. If the student fails the second retake, then the student must enroll again in the subject.

## 6.F. COURSE EXTENSION OR INCOMPLETE GRADES

In exceptional cases, the professor may grade the performance of a student as incomplete (I), a grade that will be temporary and must be used only when the student cannot be graded according to the conditions established initially, due to acceptable and well-founded reasons. The professor must establish the terms of completion and a date, which must not exceed two months once the academic period has ended, informing the Registrar. This will be an out of term qualification. As long as a subject is graded as incomplete it will be considered as not graded.

Some students may receive a partial absence license. This license is granted only in the following cases:

- Illness (withdrawal from physical or mental disability).
- Maternity or paternity leave.
- Extraordinary work tasks.
- Military Leave.
- Moving abroad.

The student must submit the required documentation for each situation. The application will not be approved if the submitted documents do not accurately support the request, or if the information is false.

The Assessment tools that apply to each one of the subjects of the program are:

1. The evaluation of the performance of students in the ordinary call of each subject through the implementation of three evaluation instruments among which we can list: assignment, practice activity, forum activity, oral report, portfolio and evaluation (development or test). In the two calls for retakes, 20% of the final qualification must correspond to the grade that the student has obtained in the assessment of the ordinary call; and the remaining 80%, must derive from the application of two evaluation instruments.
2. The selection of the instruments of evaluation based on the learning goals that have been established for each subject and its nature. In other words for each subject must be selected the evaluation instruments that better allow to measure the competencies that the student have reached in each course. The types of exercises that the student must solve in these evaluations must be similar to those worked in the training activities that are proposed in the framework of each subject (problem solving procedure, level of difficulty, academic requirements, among other topics).

The evaluation system of each subject is clearly and completely explained in the document titled “Subject Evaluation”, which is available in the “Evaluation” section in the virtual classroom of the subject.

## **6.G. GRADUATION REQUIREMENTS**

Each program has its own minimum requirements for graduation; however, the University expects that the student:

- Complies with all administrative requirements of the University.
  - Up-to-date documentation, no library debt, no pending administrative or internal actions, including misuse of computer resources received from the University.
- Complies with all economic commitments with the University.
  - No economic or asset debts, no financial or similar action pending and must be up-to-date with the program monthly payments or total cost payment.
  - Fulfill the graduation and diploma fees.

- Meets all academic curriculum requirements.
  - Fulfill the program requirements to obtain the degree and any report requested by the thesis board, not have been accused of plagiarism or questionable methods to obtain the degree or title and have the final work approved.
  - Comply with the specific regulations.
  - Comply with the requirements of the duration of University Life.
  - Comply with the requirements of the duration of Academic Life.

## **6.H. SUPERVISED EXAMS (PROCTORING)**

### **6.H.1. On-line Evaluation Systems**

For the on-line evaluation system basically there are three tools that minimize the risk of false identity when performing an activity:

- Access with user and password.
- Indicators of traceability
- Controls using videoconference: asynchronous and synchronous

#### **Access with user and password**

All student enrolled is assigned an access account to the PANAL system, which is the entry path to the Moodle platform for the program. The account includes a unique user name for each student and a password that the student must change as desired.

#### **Indicators of traceability**

Once the test is delivered there are a series of indicators that alert us of possible fraud, for example:

- Grades that do not correspond to the trajectory followed by the student throughout the Program.
- Changes in the drafting style compared to other submissions.
- Substantial variations in the response time.
- Variations in the IP of the computer that has delivered the test and its relation with the grades. (This is valid only for statistics IP, the dynamics will always be different for the same user).

These indicators do not validate cases of fraud, but they alert professors to require the student in videoconference or in a face to face meeting the answers given, in order to check the veracity.

## 6.H.2. Student Identity Verification Procedures

### Videoconference controls: asynchronous and synchronous

UNINI has different student identity control systems through videoconferencing, in particular:

- **Asynchronous monitoring system**, where the student is recorded while performing the test and upon delivery the recordings are reviewed to verify the identity of the student and that the norms required for the activity were met.
- **Synchronous monitoring system** through which teachers can request the student to make a videoconference, at any moment during the test.

In the asynchronous monitoring system, the student is asked to conduct the evaluation in front of a webcam that records the completion of the test.

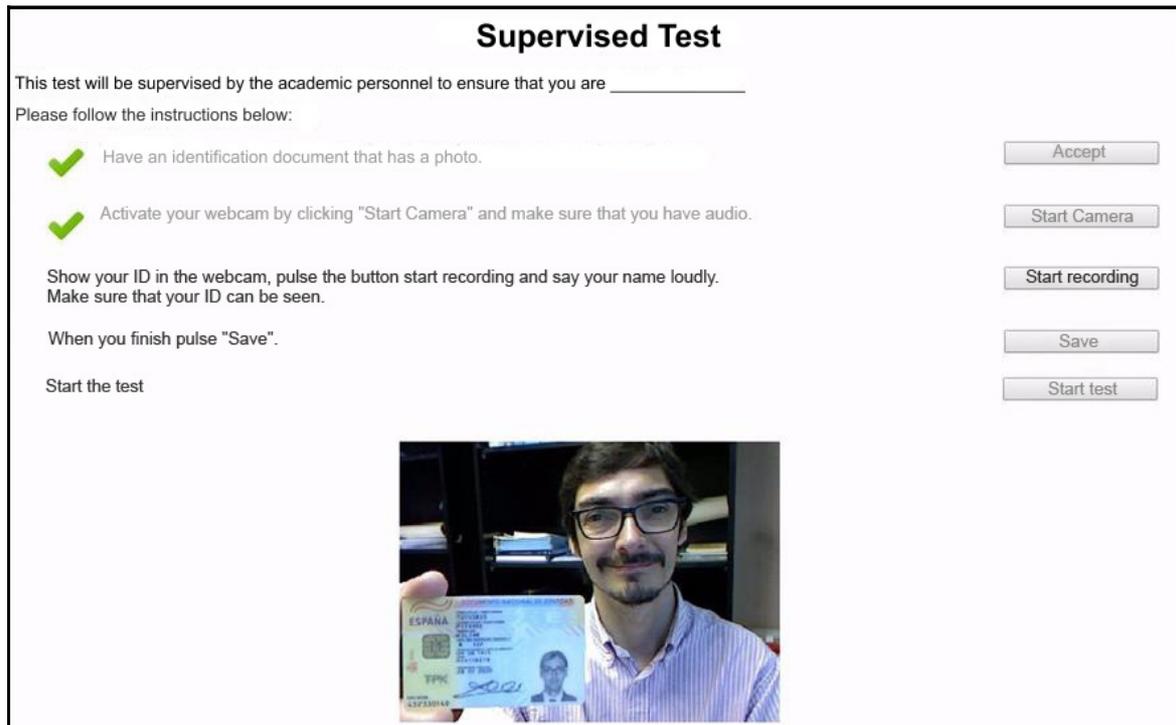

**Supervised Test**

This test will be supervised by the academic personnel to ensure that you are \_\_\_\_\_

Please follow the instructions below:

Have an identification document that has a photo.	<input type="button" value="Accept"/>
Activate your webcam by clicking "Start Camera" and make sure that you have audio.	<input type="button" value="Start Camera"/>
Show your ID in the webcam, pulse the button start recording and say your name loudly. Make sure that your ID can be seen.	<input type="button" value="Start recording"/>
When you finish pulse "Save".	<input type="button" value="Save"/>
Start the test	<input type="button" value="Start test"/>

In this initial phase the identity of the student is verified and the technical devices needed to perform the recording that will be monitored are checked.

**Figura 1:** Starting video-monitoring.

After this first phase and after completing all the steps, the test begins.

The supervisor records the outcome of the monitoring in the corresponding section and adds any necessary comments depending on the result.

If any incident is found, an alert is issued to the Director of the Program and the main professor of the subject to review the case and take the appropriate corrective actions.

The validity of the grade obtained in the evaluation is conditioned to the results of the monitoring process.

The current version of asynchronous monitoring system establishes a minimum of three supervised exams during the program:

- The first one, when the student has exceeded 15% of the program credits. In order to provide a period of familiarization with the platform of the Virtual Campus.
- The second one, when the student has exceeded 45% of the program credits.
- The third one, when the student has exceeded 70% of the program credits.

In the case of the Synchronous Monitoring System, the student may be required while performing the test to initiate a not programmed supervision, by activating a channel of video-conference communication with the monitoring personnel of UNINI.

Both videoconference monitoring systems - asynchronous and synchronous - require: from the technical point of view, devices for audiovisual recording (video [webcam] and audio), and from the legal point of view, to ensure that the registration of the information meets the regulation of FERPA concerning the terms of privacy and data protection. The student is informed during his admission process and it is specified in the document that the student completes and signs in his/her enrollment.

## 7. INSTITUTIONAL REGULATIONS

### 7.A. SATISFACTORY ACADEMIC PROGRESS STANDARD

UNINI has general academic progress policies that guarantee academic excellence. The Satisfactory Academic Progress Standard has criteria to determine student's academic performance. In addition, this policy ensures that the student can complete the degree and the satisfactory academic progress.

The standard has three principal components:

- Number of credits approved each year.
- Accumulated academic index.
- Maximum time period to obtain the degree based on the program.

Student's performance is evaluated based on those criteria. To have academic progress, the student must:

- Have approved at least 50% of the credits attempted during the first academic year.
- Have reached the required academic index for the total number of accumulated completed credits (B=80%).
- Must have completed all of the credits for the subjects on or before the first 20 months.
- Complete the academic degree on or before the recommended maximum period of time for the program.
- The Satisfactory Academic Progress depends on all the components together, not each one in particular.

The validated credits are not taken into consideration when computing the grade point average. The student should have passed 50% of all credits tested.

#### **Purpose**

The purpose for the Standard of Academic Progress is to ensure that the student can complete the degree in the time specified by the institution.

## Objectives

- Determine the number of attempted and approved credits by the student.
- That the general point average (GPA) be evaluated.
- To comply with the maximum time period to obtain the degree based on the program.
- Increase student retention.
- Increase graduation rate.

## Appeal Process

1. The student has three calls (one ordinary and two retakes) to achieve the Satisfactory Academic Progress Standard. If the student fails, he/she can appeal the decision at a Committee named by the Rector and presided by the Dean of Students Affairs. Besides, the Dean of Academic and Strategic Management, the Registrar and the Professional Counselor are also part of this Committee.
2. Extraordinary circumstances which could affect the student's academic performance, such as family death, divorce, serious illness, change of academic purpose will be taken into account. The student will be responsible for submitting in writing all the necessary documentation to support their appeal.
3. The Committee is convened by the Dean of Students Affairs, if necessary, and will have ten (10) working days to resolve the situation once a meeting is called.
4. The Appeals Committee will evaluate each case and notify the student of the action taken.
5. It will also send a copy of the decision to the Dean of Students Affairs who will write the decision in the Management System.

The request for reconsideration shall be made by email to the Dean of Students Affairs.

## Personnel Responsible for the Standard of Satisfactory Academic Progress

- The Dean of Students Affairs, the Dean of Academic and Strategic Management and the Professional Counselor are responsible for the Satisfactory Academic Progress Standard.

## 7.B. STANDARD TO COMPLETE AN ACADEMIC DEGREE

All students must complete their academic degree on or before the maximum time period indicated in the program.

The Institutional Standard gives the Student a maximum of 12 additional months of the required time to complete the grade. The student can take advantage of this extra time, a maximum of two extensions of six months each, at the Student Affairs Deanship and must pay the corresponding fee at the Administration and Finances Deanship.

## **7.C. PERFORMANCE STANDARDS**

### **Regarding academic performance, University students:**

- Must seek and express the truth while respecting differences.
- Must participate actively in the Virtual Campus and seek to participate in onsite classroom activities, if any.
- Must comply with the University's Satisfactory Academic Progress Standard.
- Must respond to the professor/tutor follow ups to check progress.
- Must not exceed the academic time schedule indicated in these guidelines (or they may be asked to withdraw from the University).
- Must maintain, enhance, and disseminate the values of the University and the country.

## **7.D. ONLINE PERFORMANCE STANDARDS**

### **Regarding academic performance, students:**

- Must pass all subjects and graded activities with honesty and integrity.
- Must maintain an appropriate relationship between passed credits in courses versus the maximum time to complete the program.
- Can appeal any grade following the Claim and Complaint Procedure described further in this manual, in Part IV. Academic Claims, specifically in item IV.1. Grade Claims.
- Are responsible for the content of each document he/she generates and/or puts his/her name on.

## **7.E. ATTENDANCE AND INTERACTION IN CLASS**

### **Regarding attendance and interaction in class, a student of the University:**

- Will participate and interact in the subject and/or Virtual Campus (forums and other activities); as stated in Subject Evaluation and in the evaluations that request interaction.
- The participation and interaction may be evaluated in different manners, for example, evaluation and accounting of messages sent in the forums, Virtual Campus activity, etc.
- This information is detailed in the rubrics of the subject.

## **7.F. STANDARD RELATED TO ACADEMIC HONESTY**

- Must not incur in any copy, plagiarism or falsification of documents, information or data.
- Must not submit false information, change of identity or falsification of own or someone else's identity.

## 7.G. ACADEMIC AND NON-ACADEMIC DISMISSAL STANDARDS

Infringement means any conduct that violates the exercise of rights and duties of students. Violations are classified according to their level as less severe, severe and very severe. This level will be determined by the Discipline Committee.

- The student under investigation is not considered guilty under any circumstances until the final resolution by the Discipline Committee.

### Types of violations:

#### 1. Specific less serious offenses:

- Alter the normal development of any academic activity through the Virtual Campus and/or visits to the university.
- Be under the influence of alcohol or illegal substances when visiting the University.

#### 2. Specific severe offenses:

- Perform inadequate or unrespectable written expression in the Virtual Campus.
- Violate provisions adopted by the University's authorities.
- Perpetrate malicious acts intended to disrupt the legitimacy of any academic activity through the Virtual Campus.
- Submit altered or false documents.
- Distribute in the Virtual Campus material that can be offensive to the recipient.
- Make written expressions in the Virtual Campus that attempt against the prestige of the University, the community or its members.
- Intervene without authorization the computer systems of the University or use them to intervene without authorization in external systems.
- Make a malicious false statement to the Discipline Committee.
- Repeat a less severe offense.
- To visit the University facilities with an entrance prohibition, to perpetrate or participate in any way of disturbance that obstructs the development of the university activities, and/or hide, damage or destroy University property or documents, and/or student, personnel or third party properties.

#### 3. Specific very severe offenses:

- Alter any University document.
- Commit written violence through the Virtual Campus against the members of the University Community, for example, threats, false accusations, insults or interferences in the exercise of their rights.
- Repeat a severe offense.
- Use the content of the texts as own.
- To carry a weapon on college facilities (except for public order agents which due to the nature of their job are obligated to carry them) traffic, carry or store illegal substances, obtain or steal University documents or property, or students or any community member property.

- Not attend to a meeting with the Discipline Committee on the day and time indicated.
- Use the name or logotype of the University, its entities and authorities without the corresponding authorization.

The Discipline Committee may extend or alter this list, without excluding or removing any infringement, according to the cases investigated and prosecuted.

#### **Types of sanctions:**

- Less serious offenses will correspond to one or more of the following sanctions:
  - Verbal warning
  - Written reprimand
- Serious infringements will be sanctioned with one or more of the following:
  - Temporary suspension of participating in the Virtual Campus in all University activities (withdrawn student) from one day to a maximum of four months.
  - Prohibition to enter into the physical facilities and the University's computer services for the sanctioned period. The student in this situation will be considered partial withdrawal.
- Very serious infringements will correspond to one or more of the following penalties:
  - Prohibition to enter into the physical facilities and the University's computer services during the sanctioned period (partial withdrawal). The time will be determined by the Discipline Committee.
  - Expulsion from the University, which means an indefinite admission prohibition (permanent withdrawn student).
- The sanctions will be recorded in the student's academic record.
- The imposition of disciplinary measures outlined above will be in accordance with the merit of mitigating circumstances or aggravating responsibility in each case. Having good academic background, prior good conduct, or remedying part or all of the damage done by the infraction can be considered as extenuating circumstances.
- The Discipline Committee may, in certain cases, lower the sanction degree in exchange for alternative sanctions which promote the rehabilitation of the student and the benefit of the University community.
- Disciplinary measures will be applied without affecting the exercise of appropriate legal actions according to the law of the country. Being a Distance Education University, legal action outside the country or application of international standards is not excluded.
- If a university official or professor contributes to false, erroneous or incomplete information, they will be sanctioned with temporary suspension without payment for a period of one academic year. If there is a recurrence, the official or teacher can be dismissed from the University. This investigation will be conducted by the Discipline Committee following the same operating procedure.
- In the event that a member of the Discipline Committee commits acts that affect the proper performance of the Discipline Committee the member shall be expelled from the Committee and the vacancy shall be filled by the Rector. In case of official or professors, they shall be punished with the temporary suspension of activities without payment for a period of one academic year. If

there is a recurrence, a dismissal procedure will be applied. This investigation will be conducted by the Committee following the same procedure.

## **7.H. STANDARDS OF BEHAVIOR**

### **Student code of conduct**

University students are considered responsible for their ethic, moral and legal actions. Who accept the University's Mission and all of its standards, regulations, and statutes and as such count with the rights to participate in its academic life.

#### **Regarding conduct, a student at the university:**

- Will make good use of the University's services.
- Will not participate in or involve the University or any third party in any illegal or unlawful act, as well as any act that impact their own, the University's or third parties ethics, morals and/or integrity.
- Will comply with the educational program responsibly.
- Will not give any false information to the University.
- Will not abuse their rights and obligations.
- Will not engage in copying, plagiarism or falsification of documents, information, or data.

## **7.I. MUTUAL RIGHTS AND OBLIGATIONS OF THE INSTITUTION AND STUDENTS**

The University promotes the creation, discovery, organization, transmission and management of knowledge from its own teachings and from the reflection processes on the application of these same teaching processes.

The University aims to train people who have a clear understanding and specific comprehension of basic principles of science and technology, with a vision and perspective that integrates natural and social phenomena, and with study, work and research habits to act on their future activities with a strong and secure comprehensive preparation.

The University bases its course of action on the freedom and rights that each person enjoys which are granted by the constitution and laws of the country and the laws and regulations in the defense of people worldwide.

The University defines as a student, for the purpose of applying these statutory norms and application of the policies and University life, as a person that complies satisfactorily with the requirements of admission and has the qualities of a student in accordance with the active regulations regardless of sex, race, nationality, religion or political conviction.

Any person defined as a student of the University enjoys freedoms and assumes obligations and rights toward the University and the University towards him/her. In general, a college student must show a high and unrestricted respect for the rights of others, excluding all forms of violence or

incitement to it either physically or virtually. The University protects the individuality of opinion and behavior, but does not condone the exclusion of or aggression towards others arising out of individuality.

## **7.J. RIGHTS AND OBLIGATIONS OF THE INSTITUTION WITH STUDENTS**

The student is entitled to, and it is the obligation of the University to:

- Provide a solid scientific, technical, professional, humane and supportive education guided by the philosophy of the University.
- Develop in each student a strong resourceful and innovative spirit to produce advances and contribute solutions of direct application in the society and community.
- Encourage expression of opinion as part of education with a solidarity and communal respect that arises from individual freedom of expression, opinion, and behavior.
- Inform, divulge, and diffuse all information affecting University life especially relating to rules, regulations, and University decisions.
- Inform each person of the personal data contained in their academic records at the University.
- Have appeal mechanisms that are public, informed, fair and equitable to express appeals and petitions.
- Provide mechanisms to be heard by the appropriate authority on any aspect of University life.
- Always support freedom and equal rights, regardless of sex, race, nationality, religion or ideology.
- Provide a process for judging academic violations, which shall be made public along with the sanctions to be imposed.
- Ensure privacy of student information and provide the means for amends.
- The student cannot be deprived of their right of expression while being aware of the consequences of their actions.
- Ensure freedom of assembly and association in the terms accepted by society and its regulations.
- Ensure that discussion with any teacher be in the appropriate terms for a University environment.
- Prevent use of subjects for research without informed consent.
- Provide academic counseling and monitoring in any University activity accepted or required.
- Ensure an academic load that does not affect physical, mental or cognitive conditions.

## **7.K. RIGHTS AND OBLIGATIONS OF STUDENTS TOWARDS THE INSTITUTION**

The fundamental right of the student at the University is to be educated. This right is not limited to formal activities in the classroom, but extends to the set of interactions and experiences with other members of the University's community. The primary obligation of the student is to exercise this right to their maximum and show a conduct that allows the rest of the members of the University community the equal exercise of their rights and the fulfillment of their obligations.

**As an obligation of each student and right of the University, each student must:**

- Contribute to their own education and that of others in a cooperative, collaborative and supportive manner giving their best effort to individual or group study.
- Maintain a conduct and attitude in virtual and physical space that is an example of the advancement, excellence and prestige of the University.
- Refrain from participating in acts or situations that may harm or diminish the image of the University without endangering individual freedom for which the student is civilly, administratively and criminally responsible.
- Interact with respect with peers and each of the members of the university community.
- Always promote a culture of respect with the natural and social environment in an ethical and responsible manner.
- Accept and follow the rules, regulations and any existing provision of the University.
- It is the responsibility of the prospect to get information to meet the statutory requirements of each country where the profession will be practiced.
- Use University resources for strictly academic purposes and within the philosophy of the University.
- Not commit infringement of regulations, and comply with sanctions imposed in each case.
- Not provide false or misleading information or induce falsification of information.
- Not take part in activities that University regulations, national or international laws and regulations consider crimes or terrorist activities or of incitement to violence or denigration of any person or organization, or anything else that threatens people or society. Also students may not use the means and resources provided and / or used by the University for this purpose.

## **7.L. RIGHTS AND OBLIGATIONS OF THE FACULTY TOWARDS STUDENTS**

It is the right of each student and obligation of the Faculty, that each student:

- Has a public, informed, fair and equitable space for appeal to any academic event in which the student seeks or requires resolution.
- Be informed of all evaluation mechanisms to which one will be submitted cinco 5 days before the start of each academic activity.
- Be treated equally.
- Should not be forced to incur any infraction consciously or unconsciously, or voluntarily.

## **7.M. COMPLAINT AND GRIEVANCE POLICIES**

The claim and complaint process is a mechanism that allows that the student channels his/her claims when they understand that their rights have been affected, when he/she is not pleased with a decision made by the administration or the faculty or when they understand that their capacity to study or complete the program is affected.

The administrator personnel as well as the faculty will have the necessary time to propose the version of the facts. If necessary the claim will be refer to the Council of Education of Puerto Rico.

This process will be available at all time in UNINI's webpage, the Institutional Catalog, the Student's Manual and the Faculty Manual.

## **I. Administrative Claims**

This type of claims includes shipping services of materials, credit transcripts, certifications, diplomas, study plans and programs, as well as any other service offered by the Student's Affairs Deanship.

When UNINI receives a complaint or claim from a student related to administrative aspects, the procedure of the institution to handle the complaint consists of the following steps:

- First:** The student presents their complaint or claim to the Student Affairs, through the “Contact” tool available in the Panal.
- Second:** The Deanship of Student Affairs assesses and investigates the complaint or claim diligently, fairly and equitable and in a period of no more than ten (10) working days from receiving the claim.
- Third:** The receptor of the claim or complaint is contacted to discuss the measures and action to be taken.
- Fourth:** The planned measures are executed, based on the claim or complaint received.
- Fifth:** The receptor of the claim or complaint is contacted to discuss the measures and action to be taken.

## **II. Financial Reimbursements**

This type of claims includes errors committed when collecting tuition or monthly payments, as well as other services, it also includes claims related to reimbursements.

When UNINI receives a complaint or claim from a student related to economic aspects, the procedure of the institution to handle the complaint consists of the following:

- First:** The student presents their complaint or claim to the Administration and Finance Deanship, through the “Contact” tool available in the PANAL.
- Second:** The Administration and Finance Deanship evaluates and investigates the claim or complaint in a period not longer than (10) working days after receiving the complaint or claim.
- Third:** The receptor of the claim or complaints is notified about the measures and action to be taken.
- Fourth:** The planned measures are performed, based on the claim or complaint received.
- Fifth:** The student is told of the action carried out and the decision made.

### III. Technical Claims

When UNINI receives a claim or complaint from a student related to technical aspects (Access to the PANAL, Access to the Virtual Campus, problems to load documents to the Virtual Campus) the procedure of the institutions to manage the claim consists in:

- First:** The student presents the claim or complaint to Technical Support, through “Contact” in the PANAL.
- Second:** Technical Support evaluates and investigates the claim or complaint in no more than 24 hours after receipt.
- Third:** The recipient of the complaints or claims is contacted about the measures and actions that must be taking.
- Fourth:** The measures are carried out, based on the claim or complaint received.
- Fifth:** The student is notified of the action carried out.

### IV. Academic Claims

When UNINI receives a complaint or claim from a student related to academic aspects, the procedure of the institution to handle the complaint consists of the following steps:

#### IV.1. Grades

- First:** The student presents the complaint or claim to the professor of the subject using the “Message” tool available on the Virtual Campus, where he/she specifies the reasons to appeal the grade obtained. The claim must be made within the first ten (10) working days after the publication of the grade.
- Second:** The professor evaluates and responds to the student's claim in ten (10) working days after receiving the claim, explaining the grade given or correcting it.
- Third:** The professor makes the necessary corrections in the Virtual Campus and/or the student's academic record, if applicable.
- Fourth:** The planned measures are executed, based on the claim or complaint received.
- Fifth:** In the event that the student is not satisfied with the professor's final decision, they can submit their complaint to the program director using the tool “Letters to the Director” available on the Virtual Campus. The claim must be made within the first ten (10) working days after the professor's final decision.
- Sixth:** The program director evaluates the appeal and responds to the student's claim in ten (10) working days after receiving the claim.
- Seventh:** If the student disagrees with the evaluation process applied by the professor and the Program director, they can request a review of their grade, appealing to the department director within the first ten working days of receiving the decision.
- Eight:** The department director answers the student in a maximum period of 20 working days from receiving the claim. The Deanship of Academic and Strategic Management will participate in the evaluation of the case. The resulting decision will be final and firm, by agreement between the parties involved or a simple majority.

## IV.2. Faculty

- First:** The student presents his/her complaint or claim to the Students Affairs Deanship, through the "Contact" tool available in the PANAL.
- Second:** The Deanship of Student Affairs evaluates and investigates the complaint or claim in a period of no more than ten (10) working days after receiving the claim.
- Third:** The Deanship of Student Affairs submits the claim to the Deanship of Academic and Strategic Management.
- Fourth:** The Deanship of Academic and Strategic Management evaluates and investigates the complaint or claim diligently, fairly and equitable and in a period of no more than ten (10) working days after receiving the claim.
- Fifth:** The receptor of the claim or complaint is contacted to discuss the measures and action to be taken.
- Sixth:** The planned measures are executed, based on the claim or complaint received.
- Seventh:** The student is notified of the action carried out and the decision made. Every student will have the responsibility to maintain, preserve and project a respectful attitude toward the faculty, as well as to the university community in general. Any act of inappropriate misconduct affecting the good name and image of the Institution, may be grounds for disciplinary action.

## IV.3. Program (program content, expectations on the program)

- First:** The student presents their complaint or claim to the professor of the subject, through the "Message" tool available in the Virtual Campus.
- Second:** The professor evaluates and investigates the complaint or claim in a period of no more than ten (10) working days after receiving the claim.
- Third:** The professor submits the claim to the Deanship of Academic and Strategic Management.
- Fourth:** The Deanship of Academic and Strategic Management evaluates the claim or complaint.
- Fifth:** The receptor of the claims or complaints is contacted to discuss the measures and action to be taken.
- Sixth:** The planned measures are executed, based on the claim or complaint received.
- Seventh:** The student is notified of the action carried out and the decisions made.

## IV.4. Library

- First:** The student presents his complaint or claim to the Librarian.
- Second:** The Librarian evaluates and investigates the complaint or claim in a period of no more than ten (10) working days after receiving the claim.
- Third:** The Librarian notifies the student of the action carried out and the decision made.
- Fourth:** In the event that the student is not satisfied with the Librarian's final decision, he/she can submit the complaint to the Students Affairs Deanship using the "Contact" tool available on the PANAL.
- Fifth:** The Students Affairs Deanship evaluates and investigates the complaint or claim in a period of no more than ten (10) working days after receiving the claim.
- Sixth:** The receptor of the claims or complaints is notified about the measures and action to be taken.

**Seventh:** The planned measures are executed, based on the claim or complaint received.

**Eight:** The student is notified of the action carried out and the decision made.

Complaints or claims from students related to situations that affect the order, respect, or any type of discrimination, social status, among others; will be submitted to the Deanship of Student Affairs. The complaints or claims are handled in strict confidentiality.

The student has the right to appeal in accordance to the Appeal Process established by the institution.

### **Student Complaints or Claims to the Council of Education of Puerto Rico (CEPR):**

The student is free to submit to the University a complaint or dispute about any situation that they understand affects their ability to study or complete their study program in the institution. Students will be informed, that if for some reason they do not agree with the action taken by the Institution to resolve the situation, they may contact the Puerto Rico Council of Education (CEPR). The student must exhaust all efforts with the institution to solve their complaint before submitting any complaint to the CEPR.

## **8. POLICIES**

### **8.A. PRIVACY POLICY TO PROTECT THE INFORMATION CONTAINED IN ACADEMIC RECORDS (FERPA ACT)**

The University comply with the provisions of the Buckley Amendment (*Family Educational Rights and Privacy Act of 1974, as Amended*). This federal law protects the privacy of student educational records and establishes their right to inspect and review those records. This provides further guidelines for correcting the accuracy of the information through informal and formal hearings. Students have the right to file complaints if they so wish, to "*The Family Educational Rights and Privacy Act Office, Department of Health, Education and Welfare, 330 Independence Avenue, S.W. Washington, D. C.20201*", in relation to alleged breaches of the Act by the University.

Student's can have access to the information that the University has in their file, upon proper identification. For any change, the student must notify the change through the PANAL.

### **8.B. PROCEDURES AND MEASURES TO LIMIT ACCESS TO STUDENT RECORDS**

Student documentation is protected in a computer system.

Student documentation is also physically preserved and stored in special units by the Dean of Students Affairs. This executive has an access key to these units which are accessible with digital lock and electronic key. The password will be changed every six (6) months by the Dean of Administration and Finance.

The physical space of the computing facilities and the physical documentation will be fireproof and kept at a safe temperature to preserve physical and digital documents.

### **8.C. PROTECTION MEASURES AND CONFIDENTIALITY OF CREDIT TRANSCRIPTS**

The Registrar's Office is responsible for the custody and maintenance of all official Academic Records or Credit Transcripts of the student. The Registrar also sends the Credit Transcripts to the student and certifies that the student has satisfied the requirements for graduation.

The data related to the student record, such as the enrollment data, approved courses, withdrawals, and credit transcripts are retained in the database, since the student's admission to the institution until they are granted the degree they obtained.

The Registrar's Office records all student's tuition, approved courses, withdrawals, the academic program, credit transcripts and academic progress, among others. The Registrar's Office digitalizes each academic record to keep student's information.

### **8.D. PROCEDURES AND MEASURES TO PROTECT ACADEMIC RECORDS FROM FIRE, FLOOD AND OTHER DISASTERS**

The academic and digital "Backup" records are saved in anti-flooding, fireproof and anti-shock file cabinets.

### **8.E. POLICY ON UNAUTHORIZED ACCESS TO SERVER**

The university servers are considered assets and therefore they are completely secured including control of access to hardware and software and monitoring of activities, use and maintenance.

The university servers are located in restricted-access sites, and the access to its premises is allowed only to the Technology Director, who has the access key to the facilities which are accessed through digital locks and electronic key. The password will be changed every six (6) months by the Administration and Finances Dean.

If a student accesses the servers without authorization, this is considered a serious offense and the action taken may lead to expulsion and / or a lawsuit by the University against the student.

If a person outside the University accesses servers without authorization, the University may sue them.

Any member of the University community, employee, customer or user who, without authorization, accesses, uses, destroys, alters, dismantles or misconfigures the information technologies of the University, its properties; or third persons, threaten the access and information and jeopardizes the security to create intellectual products, resulting in damage to the institutional order will be punished with a disciplinary action based on the University regulations, as well as other actions that apply.

The University classifies as unacceptable, not ethical and cause for disciplinary action the no reallocation, expulsion, dismissal, or any other legal action, any activity that violates the copyright or patent protection and authorizations, as well as agreements and other contracts registered at the University or third parties. The institution will punish any person who interferes with the use of the resources, or that attempts to get or obtain unauthorized access to these resources, or who, without authorization destroys, alters, dismantles, misconfigures, or prevents the right to access or otherwise interferes with the integrity of computerized information or the information resources.

All users must read this institutional policy regarding the information system in order to be granted access. The implementation of this policy will be in charge of each academic unit or administrative direction in coordination with the Dean of Administration and Finance.

## **8.F. USE AND DIVULGENCE OF THE SOCIAL SECURITY NUMBER**

UNINI fully complies with the laws that protect the privacy of the social security number, and any employee who reveals this number, of other employees, students or any person that has any contractual relation with the institution, will be subject to immediate dismissal and the institution can take legal action against the employee. In UNINI we comply with Law Num. 186 of September 1, 2006, that prohibits the use of the Social Security Number as routine identification in public and private educational institutions from primary level to graduate level, under penalty of receiving administrative penalties by the Puerto Rico Council of Education (CEPR).

In compliance with Law Num. 111 of September 7, 2005, "Citizen Information on Data Banks Security Act", if there is a violation in security and non-authorized access to the documents that contain the social security number, the person affected will be notified immediately through mail, e-mail or public service so that they can obtain more information. The Department of Consumers Affairs (DACO in Spanish) will also be notified in a period not longer than 10 days.

In accordance to Law Num. 207 of September 27, 2006, Law that forbids all employers of private companies and public corporation to use the Social Security Number of the employees as identification mean, UNINI does not use the Social Security Number to identify its employees, nor the students.

## **8.G. EQUAL OPPORTUNITY AND NON DISCRIMINATION POLICIES**

The Universidad Internacional Iberoamericana (UNINI) meeting the standards and dispositions established by the Constitution of the Commonwealth of Puerto Rico, establishes the Policy against Anti- Discrimination, and therefore enacts Equal Opportunity.

The Bill of Rights, Article II, Section 1 states that the dignity and equality of each human being is inviolable. All men are equal before the law. No discrimination shall be made on the basis of race, color, sex, origin of birth, social status or religious or political ideas. Both the laws and the system of public education shall embody these principles of essential human equality.

The students with special needs must apply for reasonable accommodation to the Professional Counselor, who will evaluate and advise the steps that must be followed in order to receive this accommodation. If the reasonable accommodation application is received by the Student Affairs, it will be referred to the Professional Counselor.

That is why the Universidad Internacional Iberoamericana excludes any discrimination in education, employment and services for reasons of race, color, sex, birth, age, origin or social status, ancestry, marital status, religious or political beliefs, gender, sexual preference, nationality, ethnic origin, veteran status of the armed forces or physical disability.

This policy of nondiscrimination extends to all functions and activities of the Universidad Internacional Iberoamericana and all its systems, such as employment and selection of jobs, educational programs, services, admissions and financial aid, among others.

This policy is effective immediately and supersedes any other certification, policies or regulations of any kind.

The establishment and enforcement of this policy, as well as its publishing complies with federal regulations of Title IX, Educational Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, as amended, the Veteran's Act 1974, section 402, as amended, and the ADA Act (*Americans with Disabilities Act*) of 1990.

## **8.H. PLAN TO ASSIST ACCESS FOR STUDENTS WITH DISABILITIES TO THE INSTITUTIONAL FACILITIES AND ACTIVITIES (ADA)**

Although the University will offer all its courses as distance learning, the physical facilities have the minimum requirements necessary to facilitate access for students with disabilities. In addition, deaf students may use the services of an *American Sign Language* translator through [www.globalvrs.com](http://www.globalvrs.com), where they can receive services in Spanish or English, thereby complying with the rules of the Americans With Disabilities Act. Thus fulfilling the norms of the *American Disability Act.*, of July 26, 1990 and then amended with changes and put into effect on January 1, 2009.

Students with special needs may address the Dean of Students Affairs, who will refer the case to the Professional Counselor as necessary.

## **8.I. RIGHTS OF MILITARY STUDENTS**

In UNINI we comply with Law Num. 109 of April 11, 2003, which regulates the contractual relations between the military students of postsecondary education in the Commonwealth of Puerto Rico and higher education institutions. We recognize and respect the basic civil rights recognized in this law.

Any student that has been enabled by the United States Armed Forces or the National Guard of Puerto Rico shall notify and submit evidence to UNINI of their activation and will be immediately granted a deferment until the student informs that the activation has ended. UNINI will notify the professors of the active classes at the time and they will be put in hold until the student comes back. Whenever

possible, UNINI will attempt to ensure that the same professor offers the course to the student, but if not possible, we will take the necessary measures to minimize any possible effect.

## **8.J. POLICY ON THE INTELLECTUAL PROPERTY**

The creative work of the Faculty, staff and students is subject to legal protection under the Copyright Act, for their benefit, and that of the institution and the community. Institutional policy on Copyrights, consistent with the mission of the University, tries to protect, recognize and publicize the rights and responsibilities of the University's community on intellectual or industrial work, including the right to receive income and other tangible benefits from their work.

Copyrights apply to non-teaching staff of the University, both full-time and part-time professionals, contractors and students. The policy has the following objectives:

1. Serve the public interest by providing a procedure to give access to protected intellectual work as a result of the University's activities.
2. Promote TH research and development of ideas and the publication of research and other forms of intellectual expression through proper guidance and advice how to protect and register the copyright and the economic benefit that can generate such protection and registration.
3. Define the institution's interpretation of the applicability of jurisprudence and existing regulations within the jurisdiction of the United States and the Commonwealth of Puerto Rico on the intellectual product subject to protection under copyright.
4. Protect the interests of the University and guide its employees and students on how to protect their copyrights.

## **8.K. POLICY FOR MAINTAINING THE ACADEMIC OFFERING AND COMMITMENT TO CONTINUE STUDIES IN THE CASE OF INSTITUTIONAL CLOSURE (TEACH-OUT)**

### **Policy on Maintaining an Academic Offering**

The University certifies that the academic offer is pertinent and proper, and that it is a result of studies on social needs and scientific-professional demands, and will be kept while those needs and/or demands exist, which are expected to be no less than 5 years, so as, to generate a large number of graduates that may apply their knowledge.

The university commits to the following:

- solve each incidence to the extent possible.
- actualize the contents every two years or at any required time;
- update (if required) the studies programming sequence every year;
- update (if required) the studies program; and,
- update the methodologies at its discretion according to the students' level of success.

Changes will not affect students who are active at the time of the changes and will be regulated by the norms of their academic life, maintaining their studies program for two years.

### **Commitment to Continue Studies in Case of Institutional Closure**

In the event of closure, the University guarantees the completion of all of its active students' studies under the terms of their contracts (Enrollment Agreement).

The University:

- Will keep an office to address the student for a lapse of one year.
- Will keep a list of active students by program, which will have the following information: name, ID, (passport number or driver's license), Login, estimated date of completion, and the students' academic and financial status.
- Will continue to offer the programs through the Virtual Campus until the student completes their studies, without any additional cost.
- The cancellation and reimbursement policies in the Enrollment Agreement will apply in case the student decides not to continue with their studies.
- Following the standards established in Article 48, Regulations for the Licensing of Higher Education Institutions in Puerto Rico of October 9, 2012, the Puerto Rico Education Council (CEPR).
  - Will request the CEPR to take custody of the academic records from active and graduate students, through the delivery of their digital copies since the beginning of operations.
  - Will notify active and graduate students and the CEPR about these measures through digital and physical means.

## **8.L. POLICY OF STUDENT PARTICIPATION ON INSTITUTIONAL COMMITTEES**

The students will be able to participate in the institutional committees and in extracurricular activities, as long as they are recommended by the program directors.

## **8.M. BULLYING AND CYBERBULLYING POLICY**

### **A. Objective**

In compliance with Act 104 of 2016, Harassment and Intimidation or Bullying Act, also known as Alexander Act, and Cyberbullying, UNINI establishes the following prevention and action methods against this practice. Universidad Internacional Iberoamericana (UNINI) supports the purpose of the legislations that have emerged to protect the academic environment, free of emotional and physical violence.

## **B. Justification**

This policy emerges considering, as interpreted in the act, which establishes that students need a secure environment, free of violence to reach knowledge and outstanding academic standards. Harassment, intimidation and bullying or cyberbullying are behaviors that interfere with the ability to learn in the state's public and private education system.

## **C. Definition and Description of Cyber and School Bullying**

The law defines the following types of harassment and intimidation:

- Harassment and intimidations and/or bullying; any behavior pattern done intentionally, through psychological, physical, cyber or social abuse, that has the effect of terrifying a student or a group of students, and that interferes in his academic opportunities and performance, in the class room and immediate social environment. Harassment and intimidation and/or bullying must be a harassment pattern taken into effect more than once and usually for weeks, months and even years.
- Harassment and intimidation by any electronic mean or through the use of Internet and/or cyberbullying; is the use of any oral, written, visual or electronic communication done to harass, degrade, intimidate and afflict a student or a group of students; and that tends to harm the physical, mental or emotional integrity of the student affected, and/or his property; besides the non-desired interference with the opportunities, performance and benefit of the affected student. Although the actions are not originated in school or the immediate academic environment, cyberbullying has severe repercussions and adverse consequences in the academic environment.

## **D. Expectations and Institutional Policy**

UNINI has the objective of offering high quality programs to all students. We firmly believe that our students deserve a secure, friendly and respectful environment. The university promotes a positive culture of zero tolerance to bullying or cyberbullying, accordingly the entire university community has the right to be respected, to learn or teach, and the right to feel secure in its environment. This policy emerges to prevent school harassment and to give advice about the policies established. For this the university seeks a culture that:

- Allows the student to progress free of discrimination and any way of harassment.
- Does not tolerate, approve or minimize harassment behavior.
- Is conscious of what harassment behavior constitutes.
- Provides support to harassment victims.
- Manages harassment situations in a determine way.

## **E. Responsibilities of the University Community Members**

### **Rectory is responsible for:**

- Providing an annual written version of this policy and its processes to student and the university community.
- Guiding all the personnel about the bullying or cyberbullying policy.
- Publishing and circulating this policy and process to the university community through the web page, and institutional catalog and manuals.
- Looking after the implementation and accomplishment of this policy and processes.
- Keeping statistics of the harassment and intimidation cases in the University and submitting these to the Council of Education of Puerto Rico (CEPR) before July 1, each year.

### **The Deanship of Students Affairs is responsible for:**

- Offering orientation to the student about the bullying and cyberbullying policy.
- Guaranteeing the application of the policy considering the processes and consequences established, and with this ensure:
  - The prohibition and no tolerance of any bullying and cyberbullying among members of the University Community.
  - That any member of the University Community that carries out bullying or cyberbullying has limited or restricted access to the physical and digital facilities of the University, until otherwise decided.
  - That all bullying and cyberbullying cases will be addressed within the next 72 hours after receiving the complaint.

### **The Faculty and staff is responsible for:**

- Notifying any bullying or cyberbullying situation immediately to the Students Affairs Deanship.

### **The Professional Counselor is responsible for:**

- Keeping written documentation of the harassment behavior claim.
- Notifying both parties involved that an investigation will be done of the claim received.
- Once the investigation ends, the Professional Counselor will notify the results to the Rector, and if necessary to the Discipline Committee.
- Notifying both parties involved about the outcomes of the investigation and the case resolution and disciplinary measures, if applicable.

## **F. Prevention Strategies**

- The university will publish the school harassment policy during the academic year to advise the university community about the topic and how to manage the situations that emerge in the educational scenario.

- This policy includes the definition of school harassment; how to prevent and how to act if school harassment is observed or a person is subject of school harassment. In addition, it establishes: the intervention procedure; who can offer assistance, and the applicable disciplinary measures.
- The University opens the communication via for recommendation of activities that enforce and prevent risk situations. If viable, the University will coordinate campaigns with external agencies or entities.
- Will offer the following advice to the students:
  - Never offer the username or access code.
  - Do not offer your information or details of your private life to unknown people.
  - Remember that the use of networks for illegal activities such as scam, fraud and pornography, among other, is frequent.
  - If you think you are victim of bullying or cyberbullying:
- Keep evidence in a file, or take photos or screenshots and notify the situation immediately to the Professor, Program Director, Department Director or Students Affairs Deanship.
- Do not respond to the harassment.

### **G. Procedure to Publish the Protocol**

The bullying and cyberbullying policy will be published during the year through the webpage, Institutional Catalog and Student Manual.

### **H. Procedure to Document the Cases, File Confidentiality and Maintenance**

#### **Case documentation**

The harassment claim must be informed in written to the Students Affairs Deanship. The case will be analyzed by the Students Affairs Deanship, who if necessary, will refer the case to the Professional Counselor for proper management.

In the written report the student must offer details about the harassment. In cases of cyberbullying, must be capable of evidencing the harassment through print screens, photos or any other format.

The case will be documented following the complaint procedure established in ***Point I: Complaint Procedure***, in this policy.

#### **File Confidentiality and Maintenance**

The documentation of students who are victim of "bullying or cyberbullying" is protected in a digital system and physically preserved in special facilities in the Students Affairs Deanship.

This division has the key to access these facilities, which counts with digital lock and electronic key. The password will be changed every six (6) months by the Administration and Finance Dean. Only the Professional Counselor will have access to these file and to the information contained in them. The claims that the Students Affairs Dean, after careful evaluation, does not consider bullying or cyberbullying will be field in the student's file.

## **I. Complaint Procedure**

### **Actions:**

- The student must notify the "bullying" or "cyberbullying" incident to the Students Affairs Deanship through email or letter.
- The Students Affairs Dean, if necessary, will refer the case to the Professional Counselor.
- The Professional Counselor will manage the case with the parties involved.
- The Professional Counselor will notify the concerning personnel of UNINI (Rector, Faculty) about the participation of the students in a situation that is being taken care of, if the situation affects the ordinary development of the students in the daily academic course.
- The Professional Counselor will manage the case, considering the regulations and rights of the students and will make recommendations, to the Rector and the Discipline Committee to solve the case, based on the information collected. The solution of the case, can include recommendation for guidance or any other sanction to the bully.

The student can file a complaint to the Puerto Rico Authorities if he understands that the law has been violated.

### **Authorities in charge of assisting the complaint or event:**

- Students Affairs Dean.
- Professional Counselor.
- Discipline Committee.

### **Claim Forms**

When a message is received, in the email of Students Affairs, about an alleged "bullying or cyberbullying" behavior, the ***Claim and Complaint Form*** is sent to the student. Once the student submits the completed and signed form, Students Affairs will send it to the Students Affairs Dean who will evaluate the case, and if necessary, will refer the claim or complaint to the Professional Counselor.

The details of the investigation will be collected in the ***Narrative File Form***.

## **J. Strategies to Investigate the Complaint**

The University will manage the claims or complaints regarding Bullying or Cyberbullying in the following way:

- The student will complete the Claim and Complaint Form and the Students Affairs Dean will refer the case to the Professional Counselor.
- The Professional Counselor will interview the parties involved and will evaluate the evidences, with the necessary confidentiality.
- The Professional Counselor has 15 days to carry out the investigation with the parties involved.

- If the student files a claim with any state authority, the University will abide to the determination of the Court or the concerning authority. Meanwhile, the parties will undergo a guidance process.
- The Professional Counselor will write a preliminary report, with the details of the situation that will be presented to the Student Affairs Dean.
- If the Professional Counselor understands that there was a violation to the policy, the case will be referred to the Rector and the Discipline Committee.
- The disciplinary measures will be applied according to the offense.
- The file of the case will be preserved indefinitely.

## **K. Case Intervention and Sanction Strategies**

### **Intervention strategies**

- Interviews with the bullied and bully.
- Professional counselling for both parties.
- Solve any possible bullying or cyberbullying incident that can include to refer the victim and the bully to any other service understood appropriate.

### **Infractions**

- **Minor offense**
  - Alter the normal development of any academic activity through the Virtual Campus and/or in visits to the University.
- **Serious Offense**
  - Make written expressions through the Virtual Campus that are not appropriate or that are unfit to the members of the university community.
  - Distribute through the Virtual Campus material that can be offensive to the recipient.
  - Make written expressions through the Virtual Campus against the reputation of the student.
  - Make a false malicious claim to the Discipline Committee.
  - Repeat a minor offense.
- **Severe offense**
  - Commit written violence through the Virtual Campus against the student, for example, threat, defamation, insult or interference in his/her rights.
  - Repeat a serious offense.
  - Not attending to an appearance in the day and time indicated with the Discipline Committee. This appearance can be face-to-face or through an electronic mean that allows to validate the student's identity.
  - The Discipline Committee can extend or alter the list of offense, without excluding or eliminating any type of infraction, based on the case investigated and judged.

## Possible Sanctions

- The Professional Counselor will make the recommendation of activating the Discipline Committee.
- This Committee will evaluate the case and will apply the disciplinary actions that can include, but not limit to:
  - Verbal warning.
  - Written warning.
  - Temporary suspension of all university activity in the Virtual Campus.
  - Prohibition to enter the facilities of the University during the period in sanction.
  - Expulsion of the University, which implies the indefinite prohibition to enter the University (student permanent withdrawal).

All sanctions will be recorded in the file prepared and protected by the Professional Counselor. The imposition of the disciplinary measures, previously indicated, will be carried out according to the merit of the extenuating or aggravating circumstances in each case. Extenuating can be understood as a previous irreproachable behavior, or to repair all or part of the damage produced.

The Discipline Committee can, in specific and fundamental cases, lower the sanction in one level to apply alternative sanctions that privilege the rehabilitation of the student and to benefit the university community.

The disciplinary measures will be applied in spite of the legal actions that correspond by the state law in force. As this is a distance University, legal actions out of the national territory or the application of international regulations may apply.

Students will be notified of their right to appeal the decision of the Rector and the Discipline Committee in terms of the disciplinary actions included in this policy. The student has the right to appeal in the next 10 days.

## L. Follow Up Strategies

The Professional Counselor will determine the need of professional assistance for both parties according to the results of the investigation. If the intervention of a mental health professional is necessary, the Professional Counselor will refer the student/s to the corresponding agency, described in Point M, in this policy, **Guide to Refer to a Health Professional**. The follow up and treatment will be part of the Action Plan. The Action Plan has the objective of establishing main actions that contemplate the socio-educational formation and that guarantee the security of the parties involved. Besides, must consider actions that contribute to the integral development and the continuity of the student's educational goals.

The Professional Counselor will complete the investigation report with all the details and evidences that delimit the damage caused, if any, and will establish the Action Plan for both parties. The sanctions to the bully will be imposed by the Discipline Committee.

The University is responsible for:

- Implementing the actions to stop the bullying or cyberbullying situation.
- Making sure that these situations do not repeat and acting diligently if repeated.
- Seeking the support of other institutions and agencies when necessary.
- Guaranteeing the immediate security and protection of the student's integrity, without pointing an accusation or stigmatizing the alleged bully.
- Keeping the confidentiality of each person involved.

The mechanisms to protect and keep confidentiality of the information and the file will be carried out as established in Point H of the policy, ***File Confidentiality and Management***. The bullying or cyberbullying claim files will be available for the Law and Order authorities and the Council of Education of Puerto Rico, upon written request.

### **M. Guides to Professional Health Referrals**

If the students that live in Puerto Rico require professional assistance, and under their prerogative, they can be referred to:

- Procuraduría de la Mujer - (787) 722-2977.
- Administración de Servicios de Salud Mental y Contra la Adicción (AMSCA) (787) 763-7575.
- Asociación de Servicios Psicológicos (787) 764-7594.
- Private professionals/hospitals.

The international students will be referred by International Students Affairs to the health professional available in their state. These students will follow the process established in this policy, and once the Professional Counselor determines the need for assistance by a health professional, will contact the Students Affairs Dean, who in turn will contact International Students Affairs for the appropriate process.

## **9. STUDENT SERVICES**

The Universidad Internacional Iberoamericana offers an environment that accommodates critical, creative, and innovative thinking towards training, learning, scientific, technological and social progress that allows the University to provide training for people, organizations and countries to evolve and reconfigure world relations through new social and technological channels of interaction within a society that values information, favors knowledge and co-exists through communication.

Among the advantages for a student of the Universidad Internacional Iberoamericana are:

1. The **speed** with which one can be admitted to a University program and contact the staff.
2. The **comfort** of from home or anywhere with Internet access, without being limited to traditional anxieties.

3. **Safety**- in physical, emotional and social terms- not being exposed to the risks of studying late at night and return home, both on the road and on campus.
4. The **clarity and attractiveness** of studying in a virtual environment where everything is written and a true re-learning can take place, if necessary.
5. The **amount of additional information** that the student will have, which is difficult to access in a traditional University.
6. The **financial** savings which are so necessary for the student to be able to spend on other needs for their human and professional growth.

Once admitted to the University, the active student will then receive their student ID and log in codes to the Virtual Campus and to the online resources needed to complete their studies. At the same time, the student will receive the Study Plan and Volume texts with the first subjects to be taken.

Readmitted students will have access with the student ID and password before the withdrawal, once the access is reactivated.

The student will receive the Study Plan and Volume texts with the first subjects to be taken as well.

## 9.A. STUDENT AFFAIRS

Student Affairs services guide students in their academic development. The primary interest of Students Affairs is centered in the variables that can affect student's performance and satisfaction.

During the guidance process, Students Affairs will provide follow-ups to the student's record, from tuition fees, changes, readmissions and collaboration in the retention of students.

Every student has a constant academic advising service in the tutor. This academic advising ensures a constant support service to the student.

Each subject counts with a professor and at least one tutor supporting and facilitating the learning process, activities and experiences of the subject.

## 9.B. REGISTRAR SERVICE

The Registrar's Office is managed by the Dean of Students Affairs using a computerized integrated management system (AGORA) of UNINI.

Description of services to be offered at a distance by the Registrar's Office:

- The services of the Registrar will work on a model of integrated management, which will serve to provide better student services and improve customer satisfaction with personal access to academic and administrative information in real time from the Internet.
- The Management System (AGORA) collects all student information for the administration, as well as control of the tuition, study program and student follow up from the time that they enter the University until they graduate with a degree from UNINI or are withdrawn for any other reason.

To complement the Registrar's function, distance services are listed related to Academic Follow-up.

### 9.C. FINANCIAL ASSISTANCE OFFICER

- Administers the financial aid programs for students.
- This officer is responsible for providing the student with the necessary guidance to cover the study costs and the available payment options.

### 9.D. DELIVERY AND LOGISTICS OFFICER

- This officer is responsible for maintaining the personal delivery information of every student.

### 9.E. DESCRIPTION OF THE COUNSELING PROGRAM

#### 9.E.1. Counseling Service

The guidance and counseling services are offered to our students virtually and onsite by a Professional Counselor with academic background and extensive experience in the field. With the purpose of offering academic and individual support to students. Through this service the development and welfare of the student is encouraged, while working in the educational and professional planning. Our aim is centered on the integral training of the individual so as to promote the development of intellectual and socially emotional capacities.

- **Academic Counseling:** the academic counseling assesses the interests, abilities, and limitations that may be displayed by the student. This is in order to establish a support plan and corresponding action. Through the educational planning, what we are looking for is that the student can successfully achieve their goals.
- **Individual counseling:** There are situations that may affect the student, this is why we offer the student the opportunity to express the concerns that may interfere with their performance. By using this service, the student's needs are assessed and provided with alternatives for action. Confidentiality is maintained at all times in the process. If an emergency action is required, the necessary protocol will be provided.

Those students who need professional counseling service may request it through the PANAL or by contacting us via email: [consejeria@unini.org](mailto:consejeria@unini.org). Similarly, the student can communicate to the University via telephone and request an appointment. The counseling services will not be limited to emails but also include -if it is necessary- the use of various technological tools for virtual communication and support to contact person. The individual counseling services are confidential, to care for the counselor and student privilege.

Hours: Through [consejeria@unini.org](mailto:consejeria@unini.org) 24-7

## **9.E.2. Reasonable Accommodation**

The professional Counselor will address any claim of reasonable accommodation from any candidate that requires special services. Students with special needs must request reasonable accommodation to the Professional Counselor, who will evaluate and guide the student through the steps.

## **9.F. PLAN FOR THE ESTABLISHMENT AND PROMOTION OF STUDENT ORGANIZATIONS**

The University will provide, give resources, promote and assign an operating budget from the second year of operation for a student association and an alumni center.

### **9.F.1. Alumni Association from the Universidad Internacional Iberoamericana (AEAUNINI)**

The AEAUNINI is duly incorporated in the Puerto Rico State Department with registration number 345872 of December 9, 2014 and complies with the requirements set forth in the law by the Puerto Rico Council of Education (CEPR).

More so than completing the masters degrees, the alumni from the Universidad Internacional Iberoamericana of Puerto Rico are an active part of the virtual academic community and also receive benefits, contributing to the development of their alma mater for the benefit of future generations.

#### **Objectives:**

- The Universidad Internacional Iberoamericana of Puerto Rico wants to have an alumni program that favors virtual communication with its graduates and fosters the feeling and sense of belonging of the alumni toward their Alma Mater.
- Keep and strengthen the relationships between UNINI, its graduates and active students to achieve the institution's objectives.

## **9.G. TECHNICAL SUPPORT**

All of the students from the programs of the Universidad Internacional Iberoamericana receive the necessary instructions to study their courses at the beginning of the program, covering both the acquisition of skills in the use and management of information resources as well as the integration of other students and the university community.

If the student needs Technical Support, the service can be accessed through the Virtual Campus using the “Technical Support” icon. This icon presents solutions to the most common problems. If the student cannot solve their problem, they may contact Technical Support through the contact form and they will be contacted in a short period of time.

The student may also go to the UNINI facilities on **Monday to Fridays from 8:00 a.m. to 5:00 p.m.**, where a technician may help the student with their problems.

## 9.H. LIBRARY SERVICE

### 9.H.1. About the Library

#### Location/Access/Population

UNINI's Virtual Campus. The access is through the Internet for exclusive use by the Academic Community and is designed with the philosophy to offer services 24/7.

The Library relies on a professional staff with a great deal of experience in teaching, knowledge, skills and abilities in information management and technology to train students and professors as curricular and scientific support. They also possesses technological, social, linguistic (English and Spanish) skills and multidisciplinary knowledge.

### 9.H.2. Philosophy of the UNINI Library

The working philosophy of the UNINI library is to support, promote and contribute through its services of information and knowledge to the Open Access movement. Therefore, we unite and use the infinity of existing projects on the web accessible in complete texts without restrictions and of free dissemination. We believe that for scientific knowledge to reach its maximum development, it must be communicated through the tools and traditional and non-traditional formats that allow access that is universal, free and in benefit of humanity.

With the purpose of extending the offer of search and management of information, **UNINI has also subscribed to the consultation service to data bases of bibliographical information of complete texts, e- books and discovery service of EBSCO Information Services.**

*"The Internet has fundamentally changed the practical and economic realities of distributing scientific knowledge and cultural heritage. For the first time ever, the Internet now offers the chance to constitute a global and interactive representation of human knowledge, including cultural heritage and the guarantee of world wide access.*

*Our mission of disseminating knowledge is only half complete if the information is not made widely and readily available to society. New possibilities of knowledge dissemination not only through the classical form but also and increasingly through the open access paradigm via the Internet have to be supported. We define open access as a comprehensive source of human knowledge and cultural heritage that has been approved by the scientific community.*

*In order to realize the vision of a global and accessible representation of knowledge, the future Web has to be sustainable, interactive, and transparent. Content and software tools must be openly accessible and compatible."*

Extract from the Berlin Declaration, 2003.

### 9.H.3. Mission

The Virtual Library of the Universidad Internacional Iberoamericana is an academic portal whose mission is to:

- Offer excellent information services through the Internet or diverse electronic means to the academic community it serves, without limitations of time or space.
- Promote, stimulate and communicate learning, teaching and academic research.
- Facilitate the access to sources of updated, scientific, multi-sector, free and pay access, to satisfy the needs of our students and support the Faculty.
- Preserve, organize and transmit knowledge for future generations.
- Train users in the effective skills of search, management and usage of information.

### 9.H.4. Vision

Become the best virtual space for information and academic investigation services that promote international academic learning and teaching, contributing to the institutional and academic objectives of UNINI.

### 9.H.5. Goals

1. Offer excellence and quality in all library services.
2. Provide, maintain and develop updated electronic collections pertinent to the academic programs.
3. Create a community of learning, teaching, research and academic and scientific innovation.
4. Promote the free access of scientific information through the Internet and ICT.
5. Train, teach and develop in the academic community information management skills for an integrated education.

### 9.H.6. Objectives

UNINI's Virtual Library stores the scientific-academic information suitable for the teaching and learning of its programs and employs diverse resources to support curricular offerings. Also, it aspires to become a place for counseling, training, investigation and essential decision-making. For that, it offer its users different options: Internet links, documents, books, theses and dissertations, scientific magazines, among other options of open and/or of pay-access content depending on the need. The librarian and /or Faculty analyze the quality of the resources before including them in the library.

### General Objectives

- Develop an articulated model for a bibliographic service and digital classroom that can be applied and used in various programs of study related to the on-line teaching of the Virtual Campus.

## Specific Objectives

- Develop a tutorial module on the use and handling of the entire bibliographic service.
- Design an online library with the current means of virtual support and with a real exploration of its potential to support student learning and part of the learning itself.
- Analyze the digital development of the basic bibliography of each subject and contribute to their digital equivalents.
- Search for sources of free "generic" information to replace the paying sites.
- Provide useful and evaluated information on the sites where they can access the digital acquisition of books and magazines.
- Establish agreements with classroom libraries.
- Generate a librarian catalog and documentary fund that allows autonomy of access based on an articulated structuring of the information.

### 9.H.7. Librarian

- Is the person responsible for the monitoring the Virtual Library's information management.
- Will work in the information that is the vital resource, a raw material which is the support source in the student's knowledge management.
- 24-7 availability via the Virtual Campus.
- Must adapt to the new technologies to meet the requirements of the modern society.

### 9.H.8. Basic Library Areas and Services

#### 1. Librarian Consultation

This area offers the services known by virtual reference where you interact with the librarian synchronically or asynchronously for consultation. For this, web forms, frequently asked questions, e-mail, chat or videoconference are used when necessary and by mutual agreement.

#### 2. Electronic Catalog

The virtual library is an electronic platform that attempts to reproduce and improve the behavior of a geographic studies center, with all the relevant services of administration, a lecture room, meeting places, offices and the library itself. It is not intended to replace these with an onsite system of teaching-learning for a complete online system, but various phases and models can be given, from a full on-site classroom, to a mixed system where each component has a different and specific importance to it (onsite/online) including the completely online offer.

What UNINI attempts is that, in this new situation of a virtual campus, all the interactions required to successfully obtain a teaching-learning process be reproduced. This provides an excellent opportunity to not limit learning to slavishly imitating the objectives and results of the teaching-learning classroom but to qualify for more efficient goals and fruitful educational innovations.

The University, through its online services from a Virtual Campus, will provide access to an online library and will have free access to its documentary resources for any student.

The benefits of the computer medium are in direct relation to the number of users that it serves, supporting a population of 8,000 students in this case. The online library provides its documentary resources in several types of classified access in multiple sites to facilitate its availability, such as:

- Notes by subject;
- News and highlights of the Campus;
- Supplementary material by subject; and,
- Transversal material in a program.

The type of documentation it contains is:

- Commented news;
- Defended thesis;
- Links to places of interest;
- Links to documents of interest; and,
- Discussion forums.

All the online material is free to use and disclose, and may be accessed and downloaded computationally by active students.

The Virtual Campus offers a system to search for information that, in addition to searching for information on sites and documents, searches the entire Virtual Campus, including forums, chats, and message.

### **3. Assigned readings**

In this area, different types of pertinent readings for each program are collected and stored, having been selected by the Faculty and the librarian.

### **4. Scientific Magazines**

This is a collection of links and services (of paid or open access) of professional multidisciplinary or thematic magazines.

### **5. Portals and library search engines**

Area where you will find links to Internet search services and web portals for recognized libraries.

### **6. Thesis and dissertations**

This is a collection of links and services where theses, dissertations, and documents of multidisciplinary or thematic research are stored.

### **7. Electronic Consultation**

Collection of documents, internet links, electronic books and general or thematic audiovisual materials are used by the community as reference.

### **8. User training**

Services organized to train users in the services of database search for scientific magazines, documents, theses, style manuals, among other resources like research backup tools. In addition, it provides training in the skills of information management (search, selection, analysis, organization of information). Various forms of training (fact sheets, presentations and audiovisual resources) are used.

## 9. EBSCO Database

Description of the resources offered.

### ***Academic Search Complete***

*Academic Search Complete* is the most complete and useful database for complete multidisciplinary books of its kind. It includes more than 9,100 magazine titles and complete text books and around 7,900 arbitrary publications while offering more indexes and resumes of more than 13,690 periodic and diverse publications, which include monographies, reports and conferences. The data base presents PDF content that dates back to 1887. It includes information in the areas of: Basic Sciences, Engineering, Architecture and Technology, Agro and Sea Sciences, Education, Social Science, Humanities and more.

### ***Business Source Complete***

*Business Source Complete* contains the main collection of complete texts and bibliographic registries of the most prestigious and used academic publications in the administrative and economic areas.

This data base includes complete texts for more than 3,850 magazines of which 2,006 are arbitrary. This data base also includes complete texts for 917 books, 2,530 market research reports, and 1,446 reports on the economic performance of countries, amongst others.

### ***Education Source***

A great research for the study of education, this bibliographic and complete text data base covers scientific research and the information to satisfy the education needs of students, professionals and political officials. *Education Source* was developed based on a fusion of data bases from EBSCO and H.W. Wilson, and includes many unique sources that were not available previously. This source of information offers the biggest and most complete collection in the world of educational publications for complete books, and covers an ample international range of magazines, monographies, annuals and much more. Offers bibliographic registers for thousands of publications and complete texts for more than 1,800 magazine titles, more than 50 books, monographies and hundreds of conference reports.

### ***Fuente Academica Premier***

It is a multidisciplinary database with information from prestigious periodicals produced in the Spanish language. This is a collection of high academic relevance that provides information in all areas of knowledge, namely, the social sciences, humanities, education, computer science, engineering, linguistics, art and literature, medical sciences, ethnic studies and law. The more than 850 periodicals and 30 books in full text, included in the Fuente Académica, are produced by the publishers of the most prestigious universities and research centers of the Hispanic world and represent the most important results of the region's research efforts. Amongst other prestigious periodical publications there appears: *Annual of International Law* (University of Navarra), *APORTES: Mexican Magazine about the Studies of the Pacific Basin* (University of Colima), *CEMLA Bulletin* (Latin American Monetary Studies Center), *Veterinary Sciences* (University of Pampa), *Communication and Society* (University of Guadalajara), *Literature Workbooks* (Pontifical University Javeriana-Colombia), *Social Sciences Journal* (FLACSO), *Perspectives on Policy, the Economy and Management* (University of Chile), *Development Problems: Latin American Magazine of Economy* (Autonomous University of Mexico), *Psykhé* (Catholic Pontifical University of Chile), *Accounting and Finance Magazine* (University of Sao Paulo), *International Journal of Social Security* (Blackwell Publishing), *CEPAL Magazine* (United Nations Publications), amongst others.

### GreenFile

GreenFILE offers information from reliable research on all of the aspects of human impact in the environment. Counts upon a collection of titles from such sources as academic, governmental, and general interests on global warming, ecological construction, sustainable agriculture pollution, renewable energy, recycling, and many more. This database provides indexing and resumes of more than 384,000 records, in addition to open access to full text for more than 4,700 records.

### Library Information Science & Technology Abstracts

(LISTA) indexes more than 560 fundamental publications, approximately 50 primary publications and around 125 selected publications, apart from books, research paper and reports. The topic coverage includes librarianship, classifications, cataloging, bibliometrics, collection of online information, information management, etc. The database coverage goes back to the mid-1960s.

## 11. GLOSSARY

- **Academic Life.** The time during which a student is active in the program. The sum of the periods when they are in this status must not exceed the duration of the program. The minimum academic life (as an active student) may be of 6 months and the maximum Academic Life is stipulated for the duration of the program. Academic life is counted from the official date of enrollment at the University until the date of submission of the final work required for graduation.
- **Academic Period.** Time during which a student must start and finish one or more subjects. For example, semester, trimester, etc.
- **Active Student.** A student who has met admission requirements, is current on its academic, administrative and economic obligations, and is pursuing an educational program.
- **Asynchronous.** None simultaneous or mismatched event.
- **Author:** The owner of part or a complete work, thus receiving the protection of the copyright laws.
- **Candidate.** Person interested in completing an educational program offered by the University.
- **Content.** Study materials of a subject.
- **Course Load.** Relative measurement of the effort that the professor considers to be performed by a student to study and pass the subject.
- **Credit.** The quantitative measurement of the academic work done by the students. One credit equals 15 hours of contact and 30 hours of autonomous work.
- **Degree Candidate.** Active students who have completed all their subjects and have not registered for Thesis work.
- **Evaluated Activity (educational).** Graded activity of a determined type, which can recognize the proper use and/or mastering of a set of topics.
- **Evaluation Techniques.** Any activity that measures what the student has learned so as to give them a grade or offer them information on their academic achievements.
- **Faculty.** The University officials in any academic role.
- **Grading.** Quantitative values obtained after carrying out an evaluated activity. Grading can be any of the following qualitative values with its quantitative values:

Quantitative Values			
0-10	Grade Point Average (GPA)	%	Grade
10-8.6	4.00 – 3.50	100-90	A
8.5-7.0	3.49 – 2.50	89-80	B
6.9-4.5	2.49 – 1.60	79-70	C
4.4-4.0	1.59 – 0.80	69-50	D
0	0.79 – 0.00	49-0	F

The narratives equivalences of qualitative values are:

- A: Excellent.
- B: Good.
- C: Average.
- D: Deficient.
- F: Insufficient.
- T: Transferred.

For additional complimentary special activities to the curriculum, the following grading system should be used:

- NP: Non pass.
- PS: Satisfactory pass.
- PD: Deficient.
- W: Withdrawal.
- I: Incomplete - Consists of a provisional classification that the professor assigns to the student who has all the partial evaluations of the course, but who has not taken the final exam.

All grades must be submitted to the student prior to the next activity.

- **Graduated student.** Thesis students who has successfully completed the educational program and received their diploma.
- **Module.** One or more printed subjects grouped into a single body of knowledge.
- **Official.** Person hired by the University that meets and responds to the description of a position.
- **Password.** Secret code that is used to operate a mechanism or to access certain information functions.
- **Plagiarism.** Use of another's work, ideas or words as if your own without explicitly giving credit where the information came from.
- **Printed Subject.** Chapters of a subject that define a body of knowledge for specific training. It consists of chapters and evaluated activities.
- **Schedule of studies.** Sequence of evaluated subjects and activities. Each active student at the moment he/she indicates his/her studies or retakes them receives his/her own schedule of studies.
- **Subject.** Set of content, graded activities and learning experiences which objective is to ensure that students acquire knowledge, skills, behaviors and attitudes in certain specific areas of knowledge from other previously acquired. The subject demands an effort from the student to achieve the objective, expressed in terms of credits.
- **Subject Descriptions.** Defines the set of subjects, graded work, and learning experiences through which students must acquire knowledge and the development of skills, attitudes and values expressed in the graduating profile, which enables them to receive the professional title or

corresponding academic degree. The Subject Description should contain at least the list of compulsory subjects, their prerequisites and their organization into a net of progress or schedule of studies, and, at a minimum, the credit value of each subject and the amount of credits for each term or educational module.

- **Supervised Exams (Proctoring).** Exams supervised by the academic personnel using a web cam.
- **Student.** Generic name associated with a person who enrolls in a study program.
- **Student ID (DNI).** Each active student will have a unique identification code. This code will allow access to his/her confidential information.
- **Synchronous.** Event that is carried out at the same time.
- **Thesis student.** Egressed students who have enrolled in and have been approved for thesis work.
- **University Community.** Group of professors, students and staff.
- **University Life.** Period of time during which a student remains linked to the University as part of a program by changing their status. The minimum University Life (in any program) may be of one month, with a maximum of 12 additional months after the stipulated time to complete the degree. Academic life is contained within University Life, but does not imply graduation of the student. University life is counted from the official date of enrollment at the university until the date of delivery of the final work required for graduation or total withdrawal for exceeding time limits, imposed penalties or other situation.
- **User.** Person that commonly uses a service for a specific function.
- **Volume.** The folder that physically stores one or more printed subjects and sent to active students as they move through their curriculum. It is a unit of physical storage.
- **Withdrawn Student.** Student that is no longer active or who is partial withdrawal has been removed from the curriculum due to academic, administrative or economic reasons or by choice.
